Meet Mitrixo ECHO: The AI Operating System for Engineering Firms

Stop Managing Chaos. Start Engineering Profit — Your Own Branded Portal Ready in 60 Seconds.

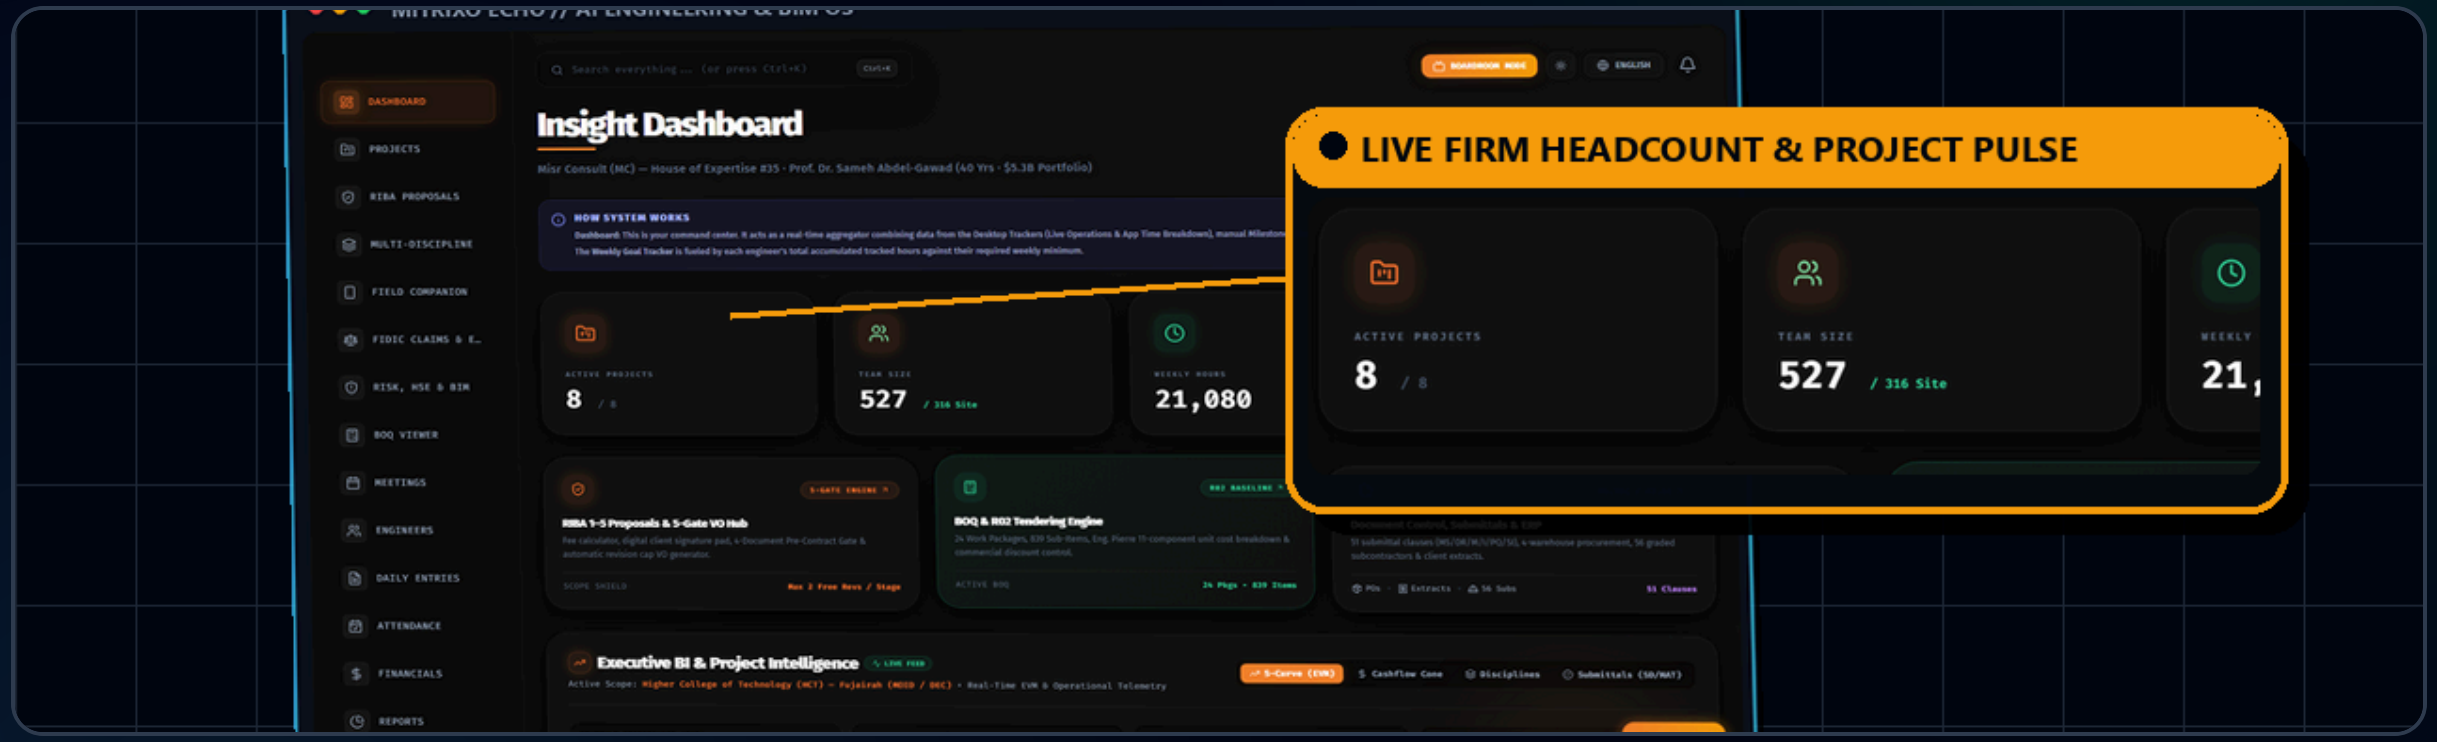

Aviation-Grade Architecture:
Following Mitrixo BRAVO & DELTA, ECHO is purpose-built for AEC & BIM firms.

Instant White-Label Portal:
Deploy your firm's logo, branches, and projects in 60 seconds.

Replaces 5 Disconnected Tools:
Unifies Procore, Deltek, Buildots, Dalux & Primavera in one OS.

Every Project. Every Engineer. One Screen.

Replace messy Excel sheets and lost WhatsApp groups with a live 5-second company pulse.

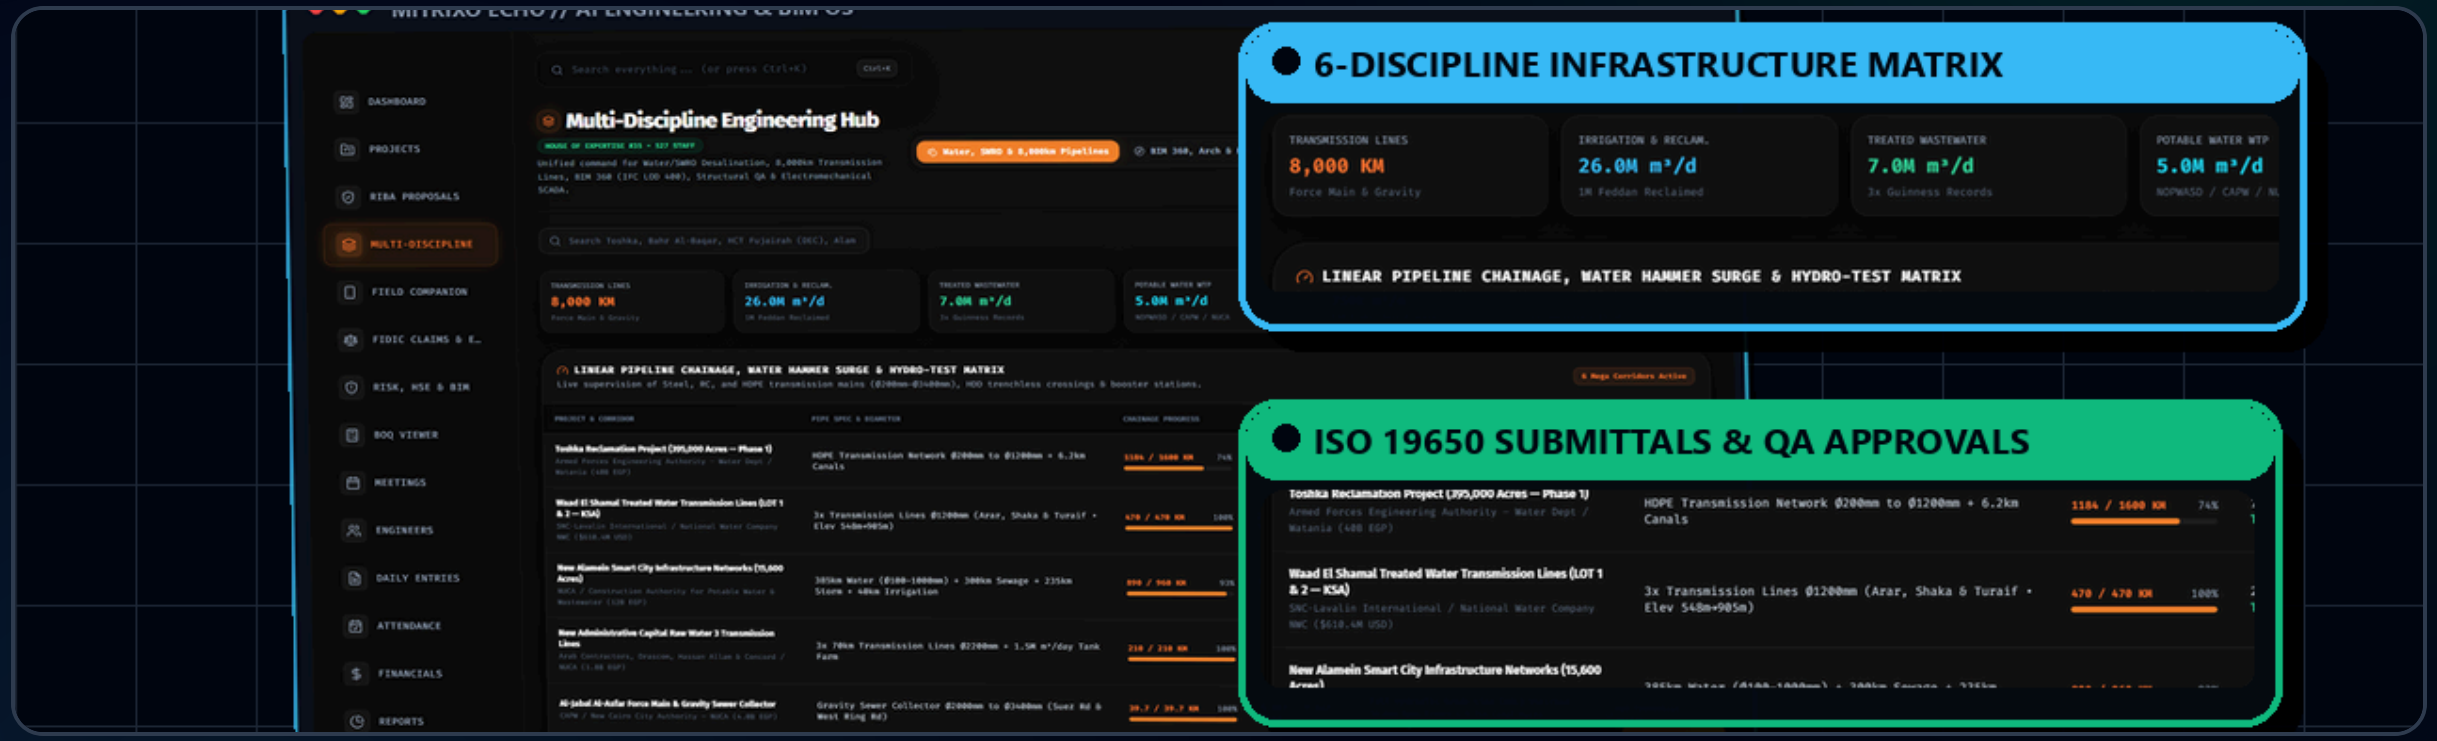

Extruded Feature — Live Headcount:
Tracks all studio & site supervision engineers across every branch in real time.

RIBA 1–5 & BOQ Governance:
Automatically locks phase progression if a client exceeds revision limits.

ISO 19650 Document Control:
All submittal clauses (MIR, WIR, Shop Drawings) and subcontractors in one place.

Civil, MEP, BIM, Water & Structure in Sync

Track RIBA 1–5 Design Stages, Infrastructure Chainage, and QA Submittals Live.

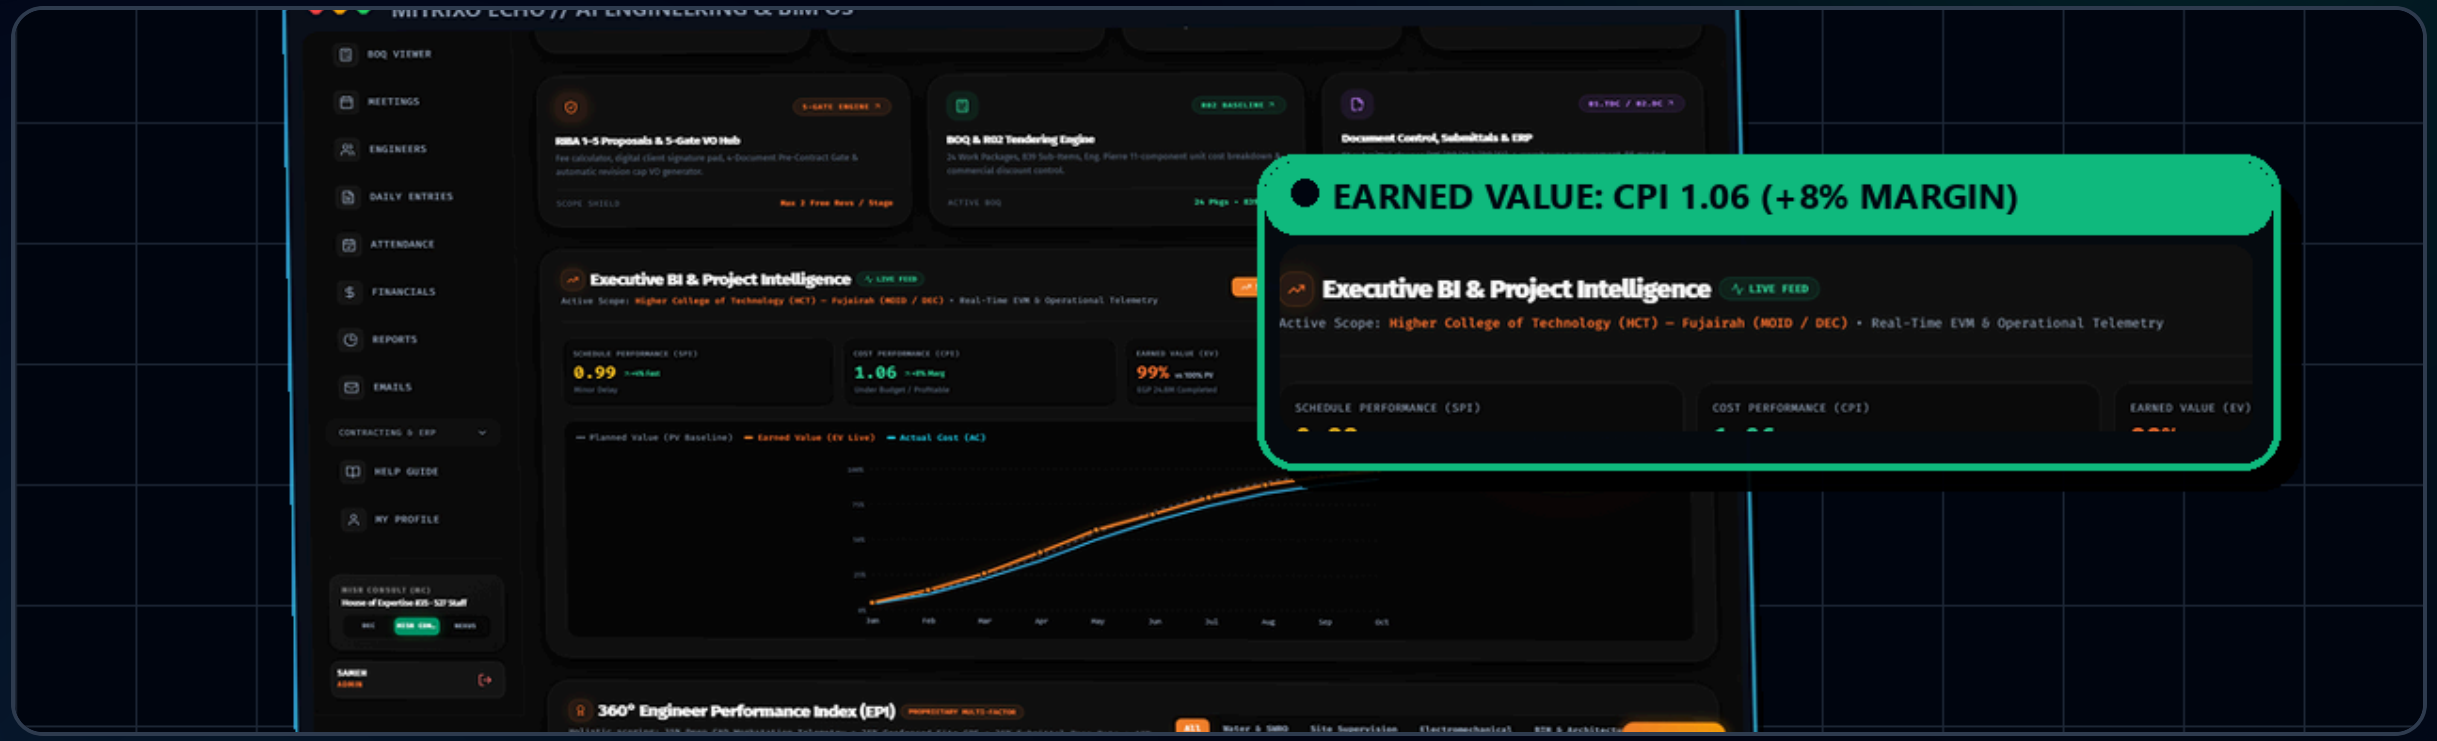

Extruded Feature — Discipline Matrix:
Live progress across Pipelines, WWTPs, High-Rise Towers, MEP & Bridges.

AI Spec-to-Submittal Auditor:
Auto-checks vendor datasheets against project specs & stamps Status A/B/C.

1-Click ISO Audit Export:
Export complete ISO 9001 / 14001 / 45001 quality registers in seconds.

Spot Delays in 5 Seconds — Not 5 Weeks

Automatic Planned Value (PV), Earned Value (EV), and Actual Cost (AC) curves protect your margin.

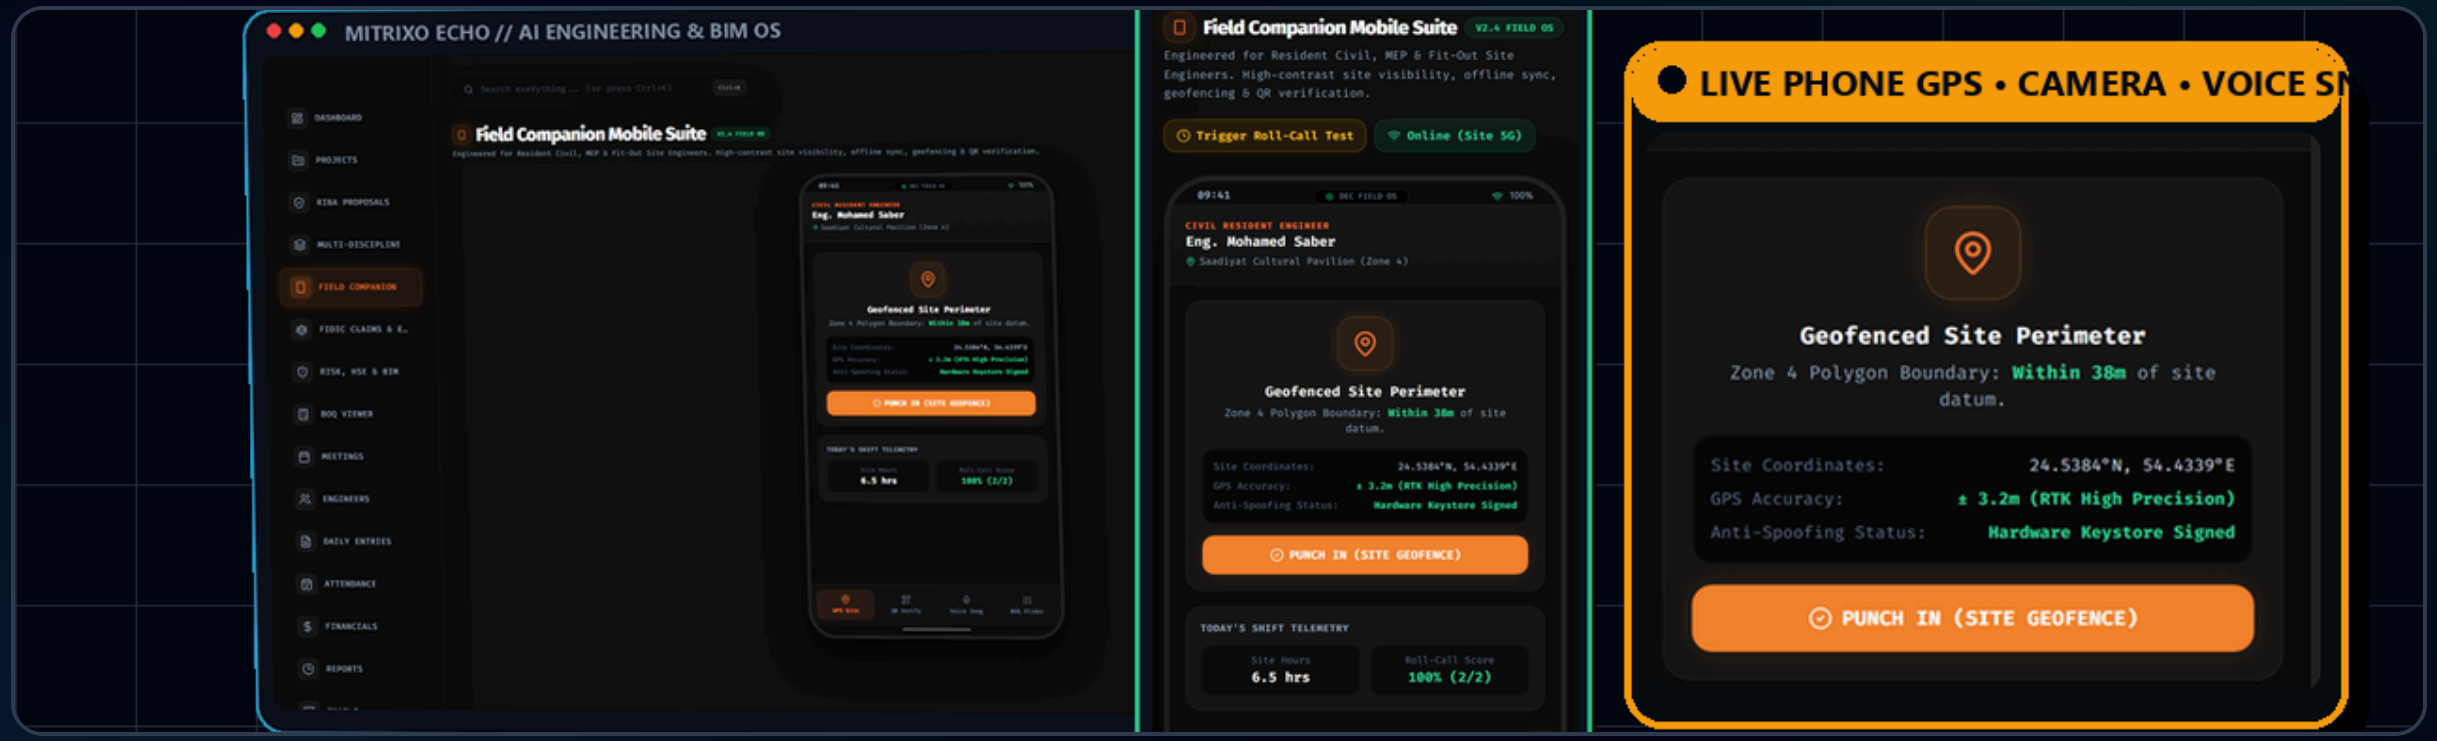

Extruded Feature — Live CPI & SPI:
Instantly see which projects are profitable (CPI 1.06) and on schedule.

6-Month Cashflow Forecast:
Predicts upcoming IPC billings, subcontractor payouts & retention releases.

Zero Manual Spreadsheets:
Updates automatically as engineers log CAD hours and site BOQ quantities.

Turn Every Engineer's Phone Into a Live Site Sensor

Connected to real phone GPS, rear camera QR blueprint scanning, voice dictation & 360° AI vs. BIM.

Extruded Feature — Real Phone GPS:
Haversine GPS geofence + Surprise Roll-Call (تمام مفاجئ) stops ghost attendance.

Live Camera QR + Revision Cloud Diff:
Scans blueprint QR stamps & highlights Red/Blue drawing changes on site.

360° AI Vision vs. BIM IPC Guard:
Compares site photos against BIM quantities to block subcontractor overbilling.

Zero Guesswork. Every Engineer Scored Out of 100.

Combines passive AutoCAD/Revit telemetry with site GPS attendance and submittal pass rates.

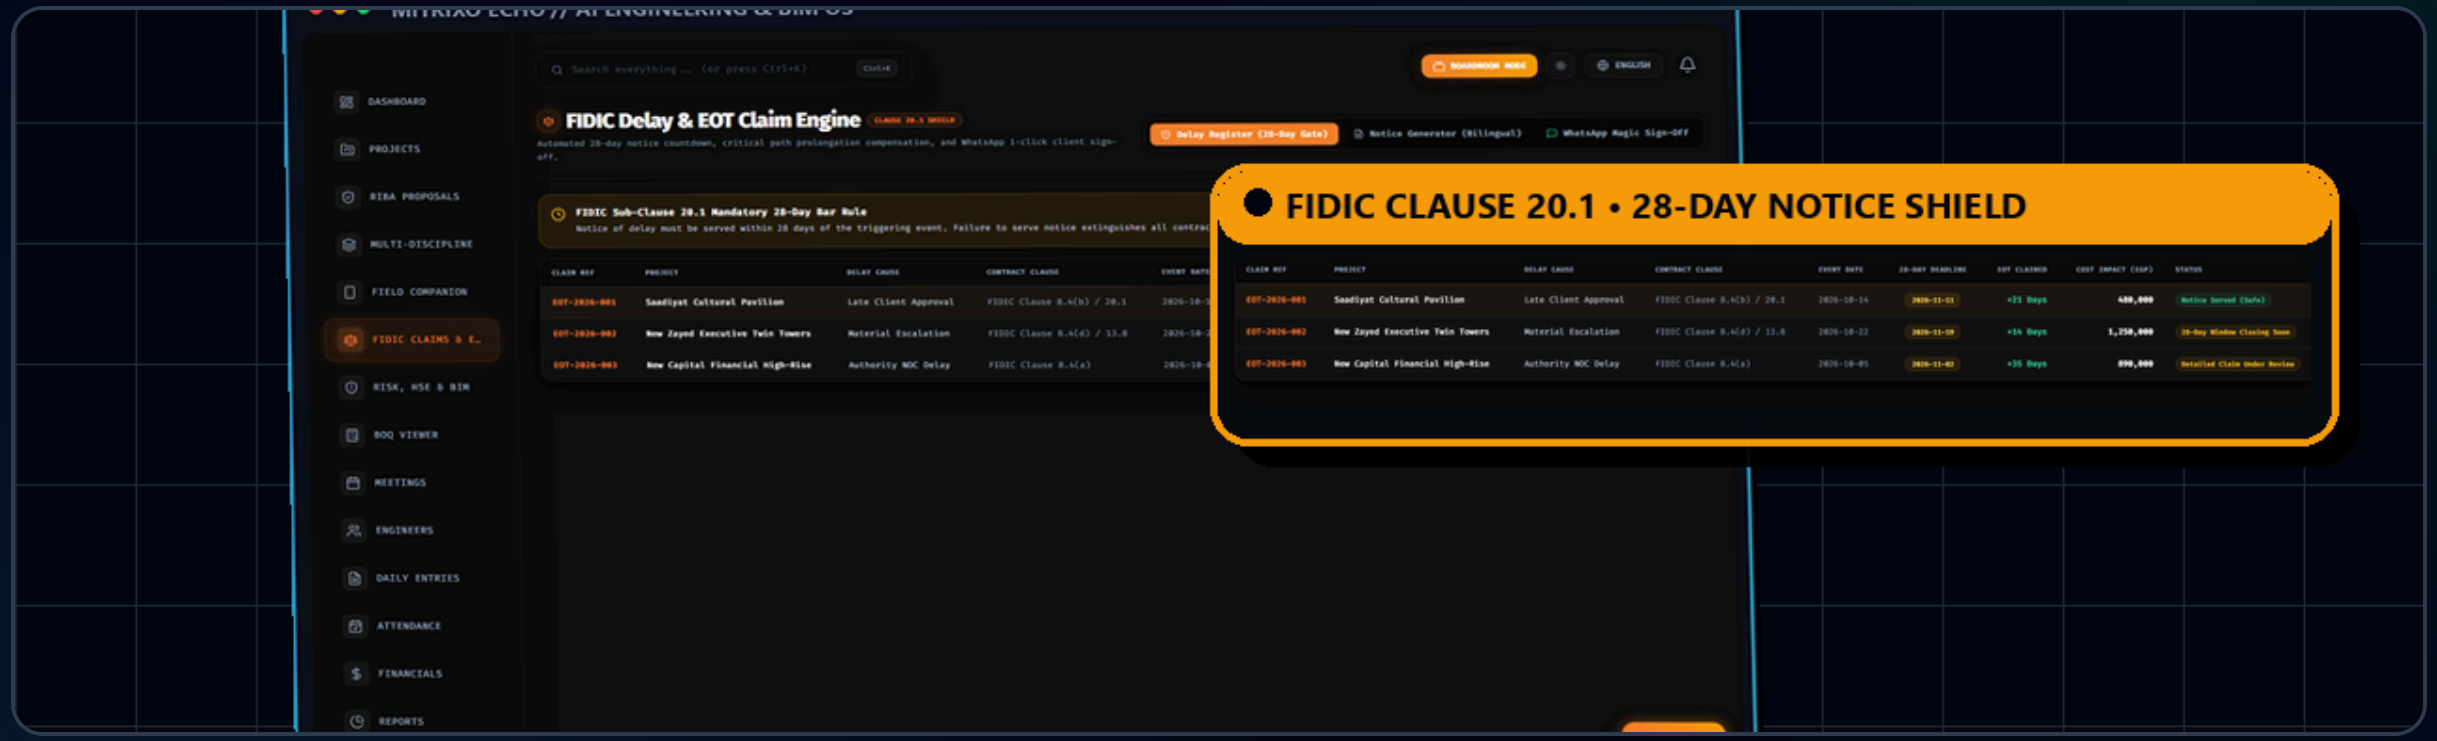

Extruded Feature — 0–100 Leaderboard:
Automatically identifies your top-performing studio & site engineers.

4 Objective Pillars:
35% Passive CAD Telemetry + 25% Site GPS + 25% First-Pass QA + 15% Milestones.

Eliminates Timesheet Fraud:
Replaces manual Friday timesheet guessing with verified workstation & site data.

Never Lose Money on Project Delays Again

Tracks the mandatory 28-day FIDIC Clause 20.1 notice window and drafts bilingual claims in 1 click.

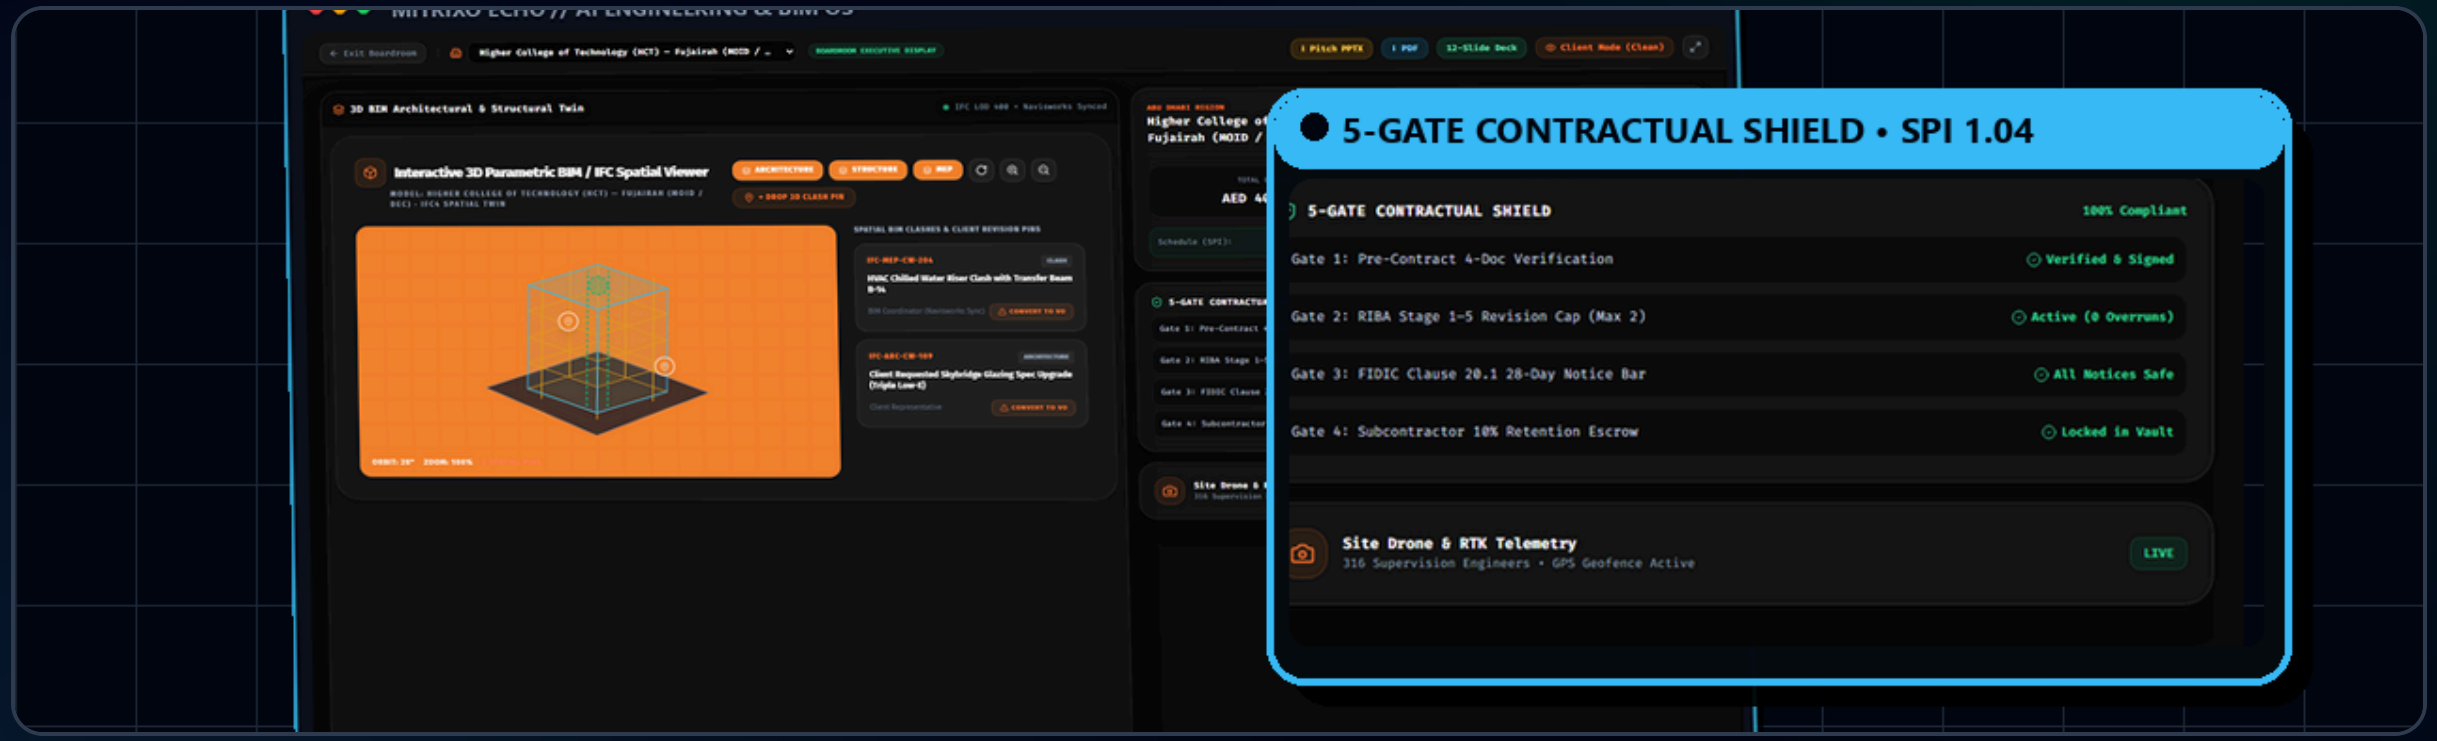

Extruded Feature — 28-Day Time-Bar Shield:
Alerts you before the mandatory 28-day FIDIC Sub-Clause 20.1 deadline expires.

Field Voice-to-FIDIC Bridge:
Site engineers escalate delays from their phone straight into the claim radar.

1-Click Bilingual Legal Dossier:
Generates ready-to-sign Arabic & English FIDIC Clause 20.1 / 8.4 notices.

Wow Your Clients in Every Boardroom Meeting

Interactive IFC4 3D Spatial Twin + 1-Click 'Client Mode' that hides confidential internal costs.

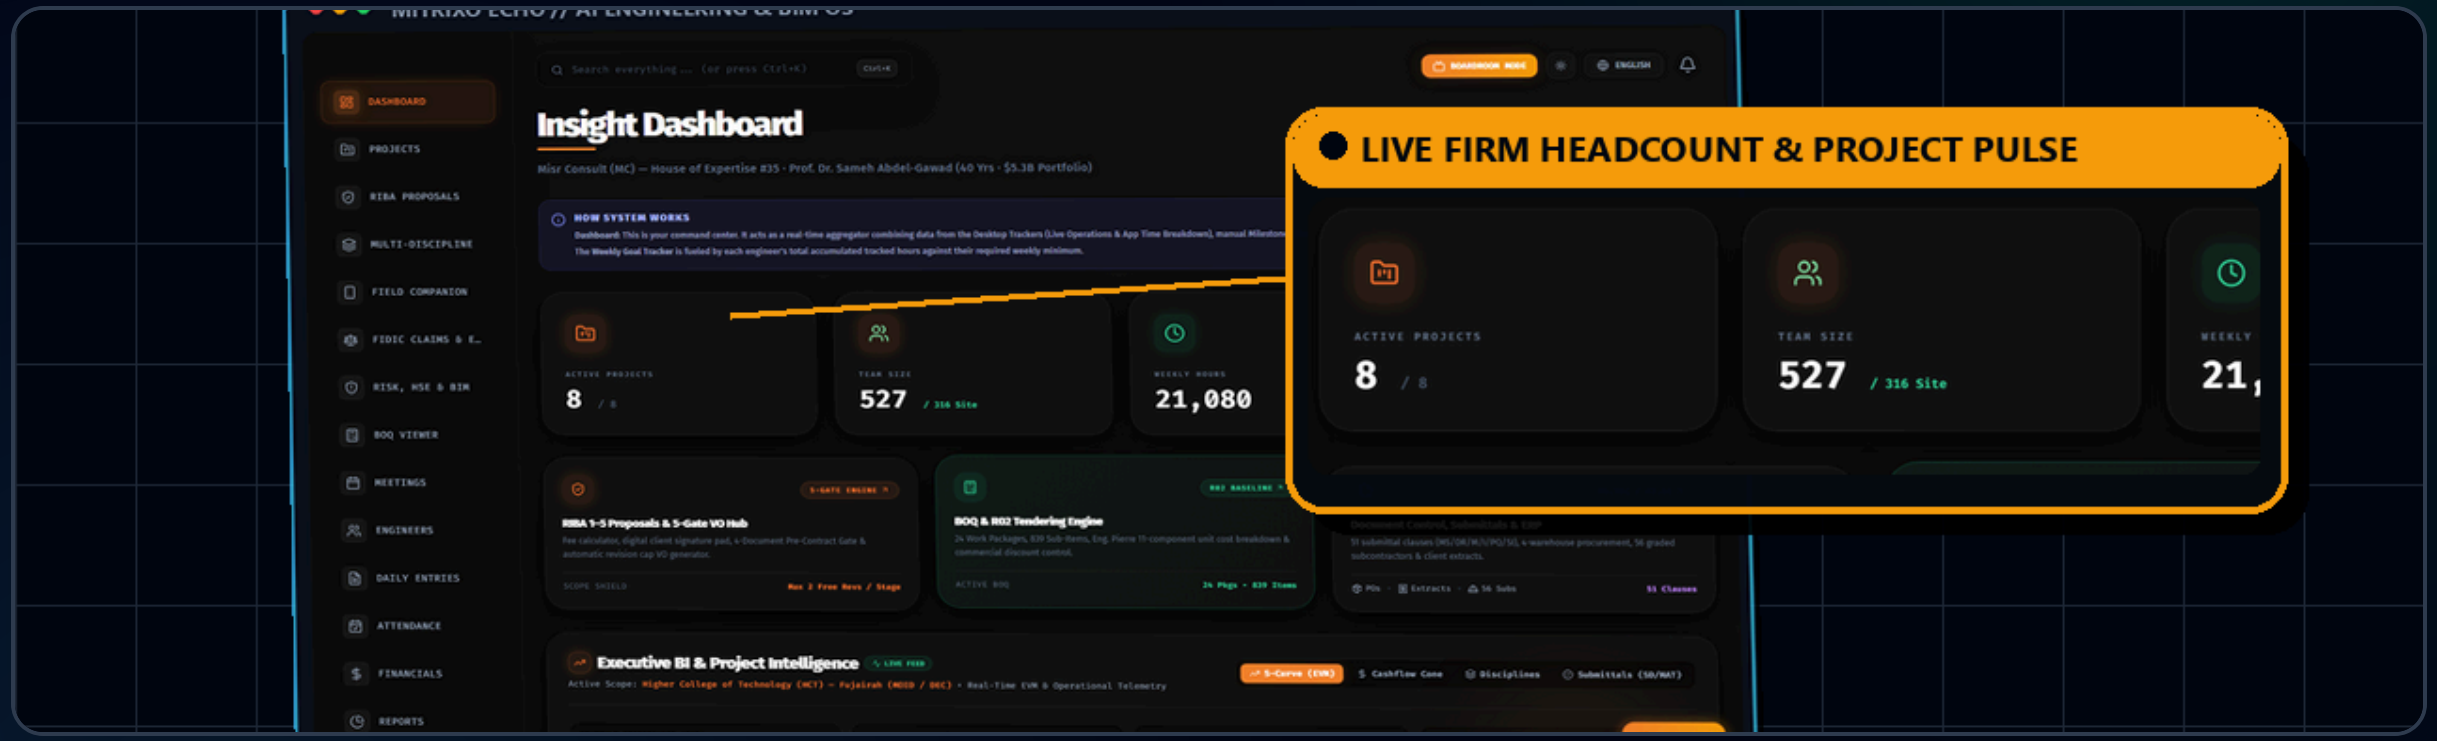

Extruded Feature — 5-Gate Shield:
Proves 100% contract, RIBA revision cap, and retention compliance to clients.

Interactive 3D BIM Viewer:
Rotate Architecture, Structure & MEP models and spawn Variation Orders from 3D pins.

1-Click 'Client Mode' Privacy:
Instantly hides internal contractor margins and hourly rates during client presentations.

Replaces $150,000/yr of Disconnected Legacy Software

Why pay for Procore + Deltek + Buildots + Dalux + Primavera when ECHO unifies all 5?

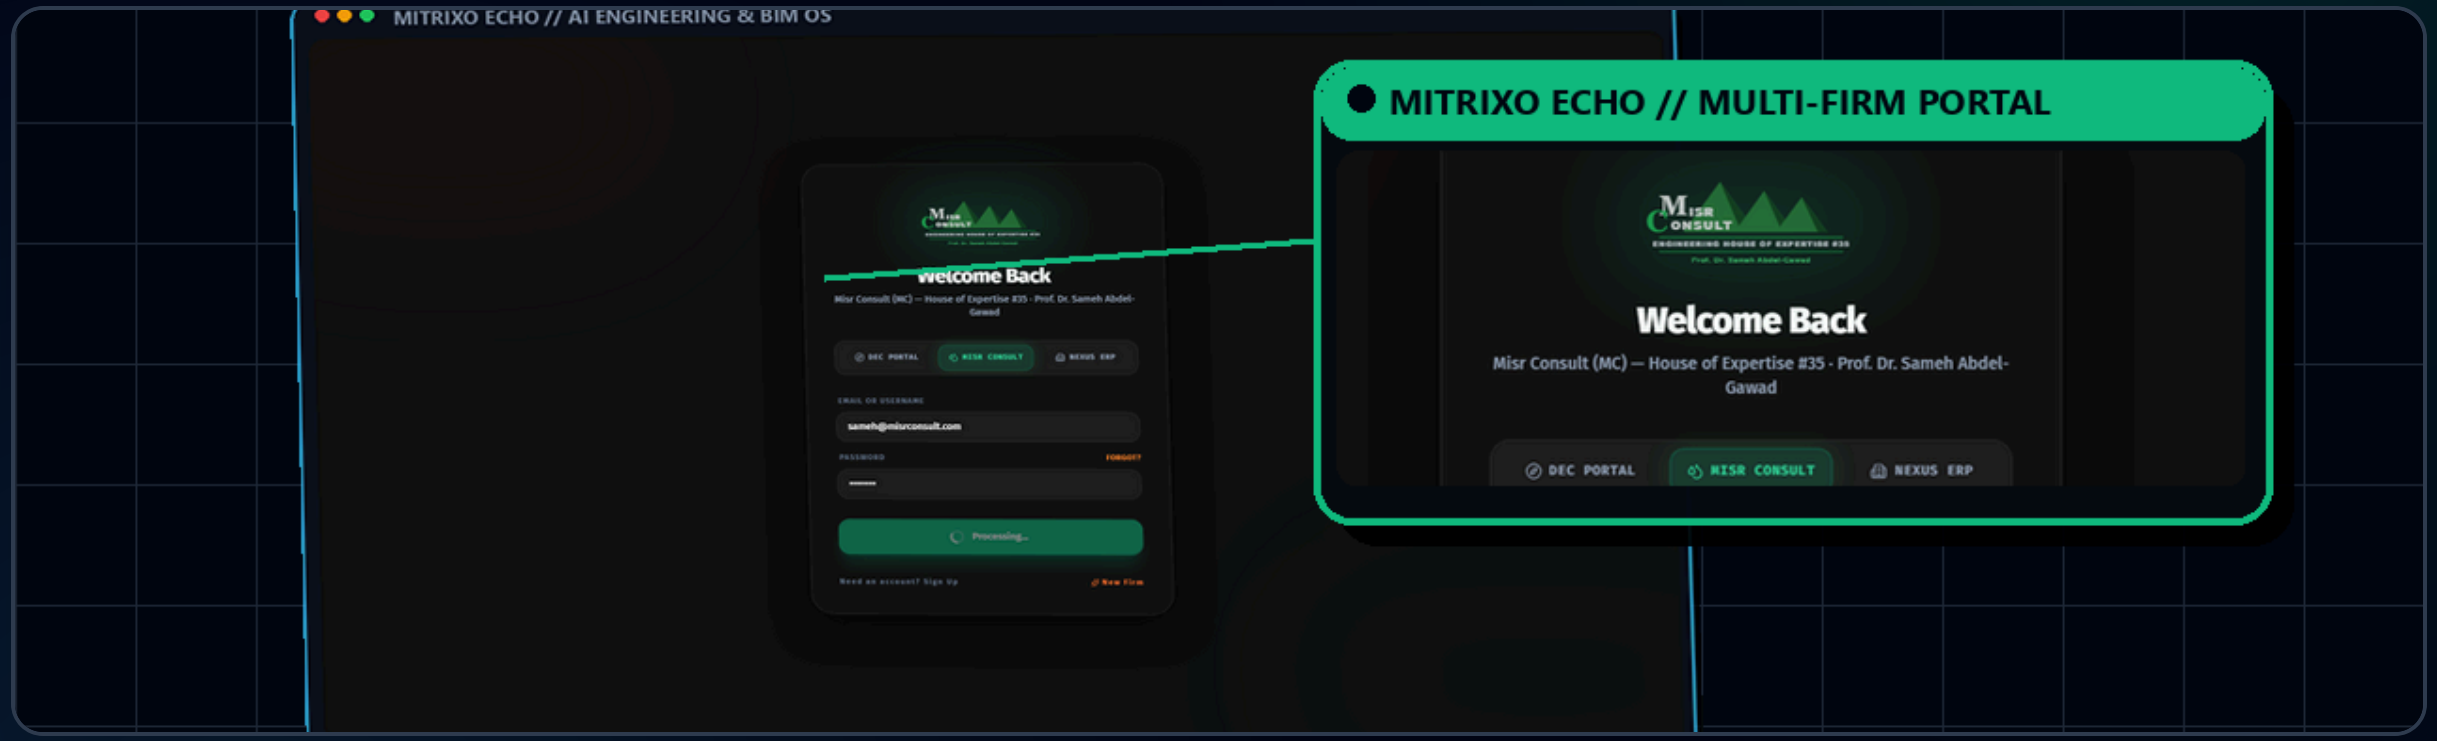

Beats Procore & Autodesk ACC:
Adds algorithmic 5-Gate RIBA revision freezes & native Arabic/English IPC extracts.

Beats Deltek & BQE CORE:
Replaces manual Friday timesheet lies with passive CAD telemetry + RTK GPS.

Beats Buildots & Primavera:
Combines 360° AI vs. BIM overbilling protection with 1-click FIDIC 28-day claims.

Simple, Predictable Pricing — Zero Per-Seat Traps

ECHO Studio ($299/mo) • ECHO Enterprise ($799/mo) • ECHO Sovereign (Custom + 30-Day Free Pilot)

ECHO STUDIO — $299 / mo:
Up to 25 Engineers • RIBA 1–5 Tracker, CAD Telemetry, Mobile GPS App & Client Portal.

ECHO ENTERPRISE — $799 / mo:
Up to 250 Engineers • All 6 Disciplines, FIDIC 28-Day Claim Shield, 360° EPI & 3D BIM.

ECHO SOVEREIGN — 30-Day Free Pilot:
500+ Staff • 100% Private Local AI + Cloud, 24-Hr Custom Features & Multi-Branch ERP.
