Your Own Branded Command Center — Live Today

Built specifically for Misr Consult's 527 engineers, 316 site supervisors, and $5.3B project portfolio.

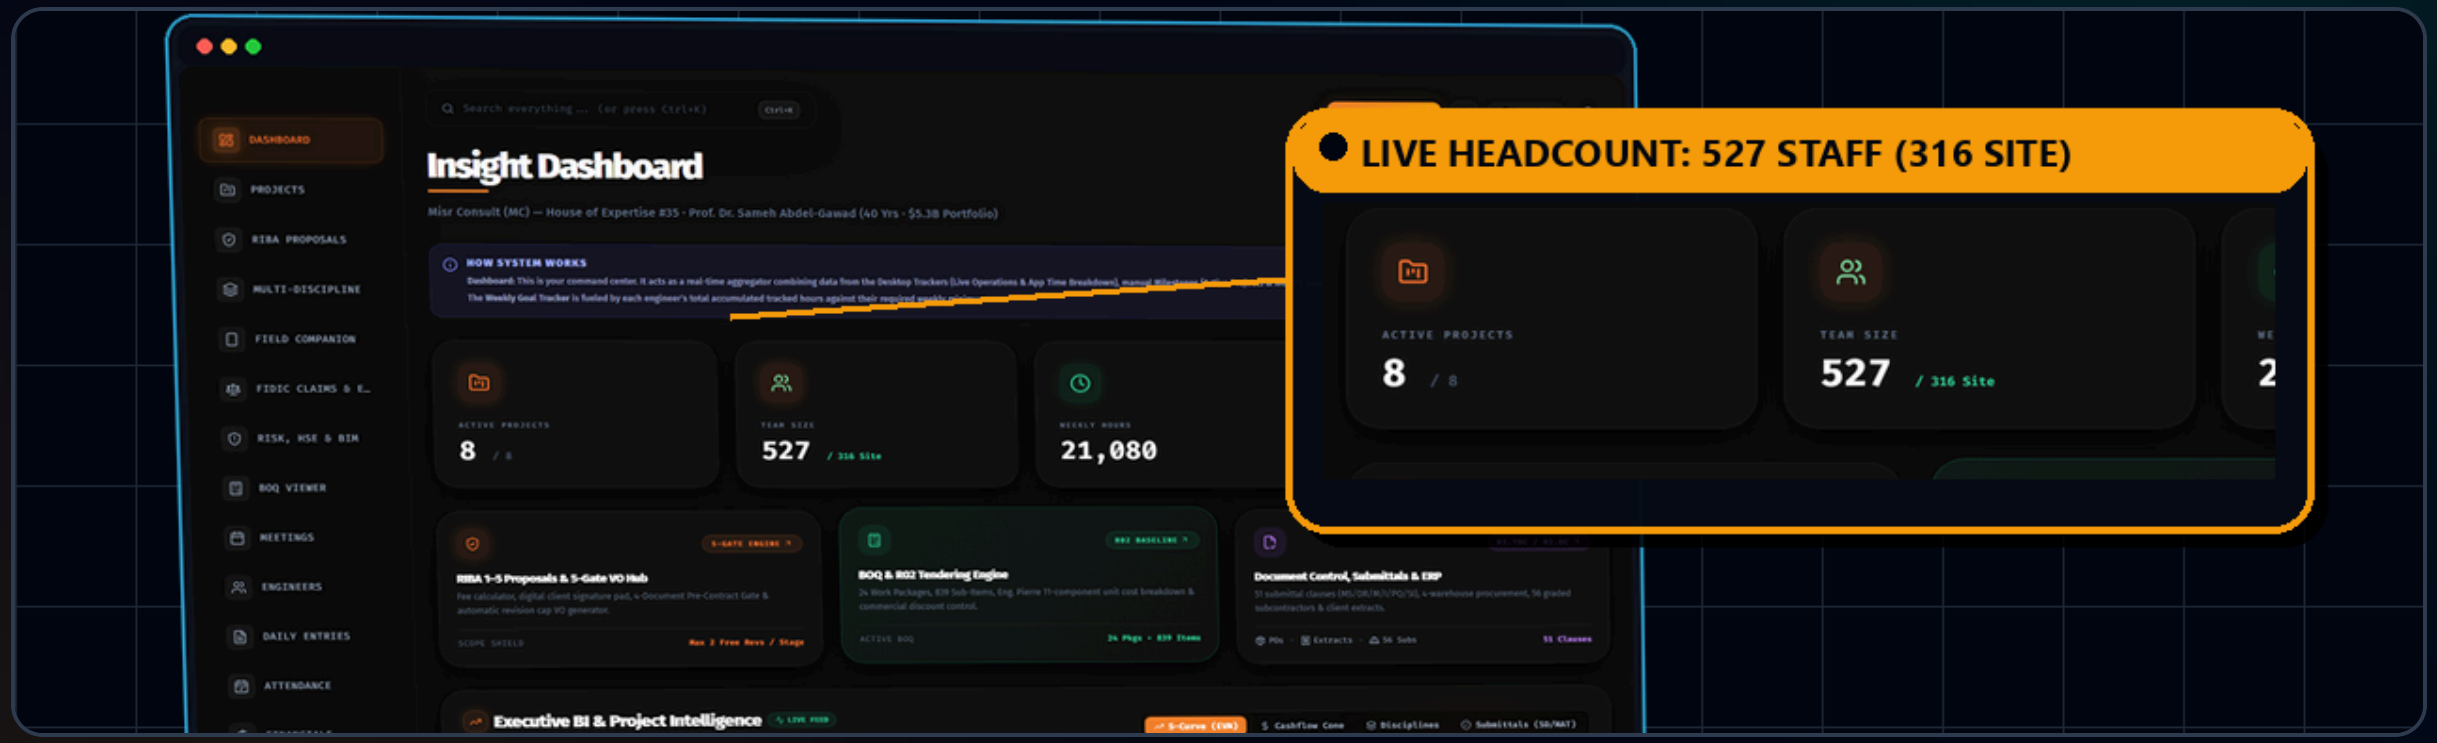

1-Click Misr Consult Portal:
Dedicated workspace pre-loaded with MC's real divisions & flagship projects.

Works on Computer & Phone:
Connects Cairo HQ design studios with remote sites in Toshka, Sinai & the Gulf.

Zero Waiting:
Already built, live, and ready for your team today—not in 12 months.

See All 527 Staff & Active Projects on One Screen

No more chasing 10 project managers for weekly Excel sheets or lost WhatsApp updates.

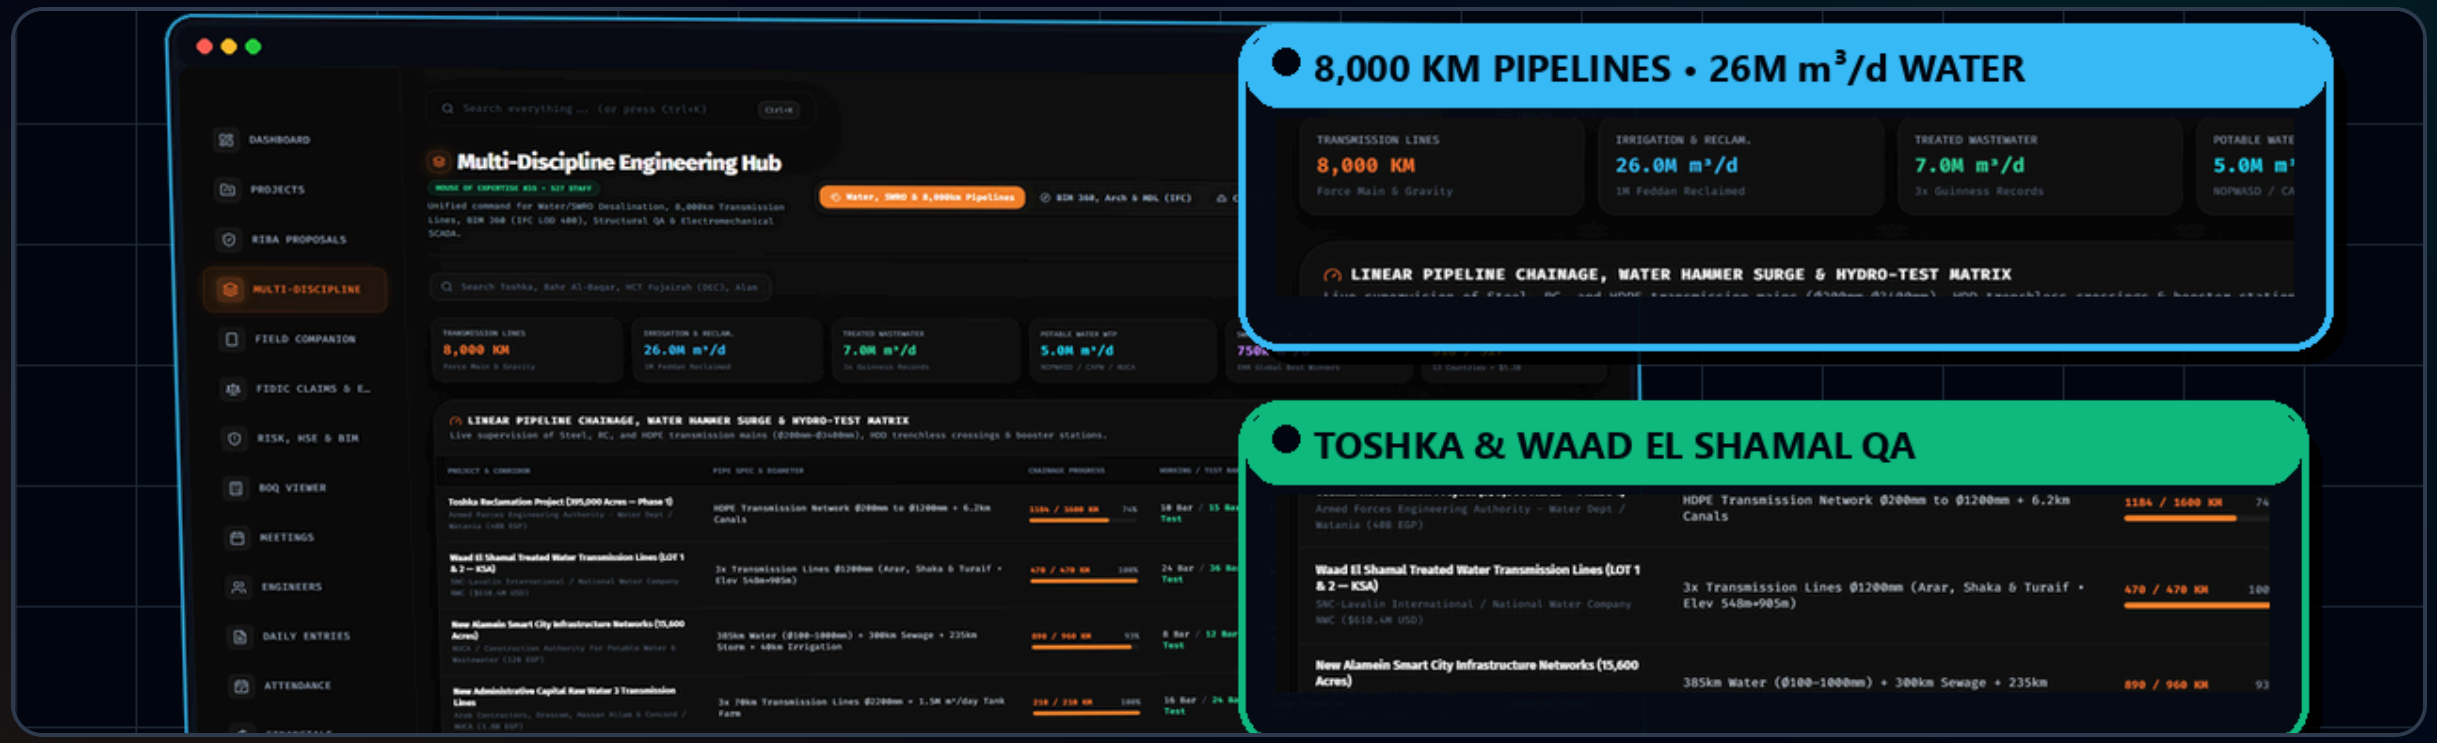

Extruded Feature — Live Headcount:
Tracks all 527 staff (316 on site + 211 in Cairo/UAE studios) in real time.

RIBA 1–5 & BOQ Tendering:
24 work packages and 839 BOQ sub-items tracked with scope protection.

Document Control & Submittals:
51 submittal clauses and 56 graded subcontractors organized in one place.

8,000 KM of Pipelines & 6 Departments Tracked Live

Custom-built around Misr Consult's exact strengths: Water, SWRO Desalination, Civil, MEP, BIM & Bridges.

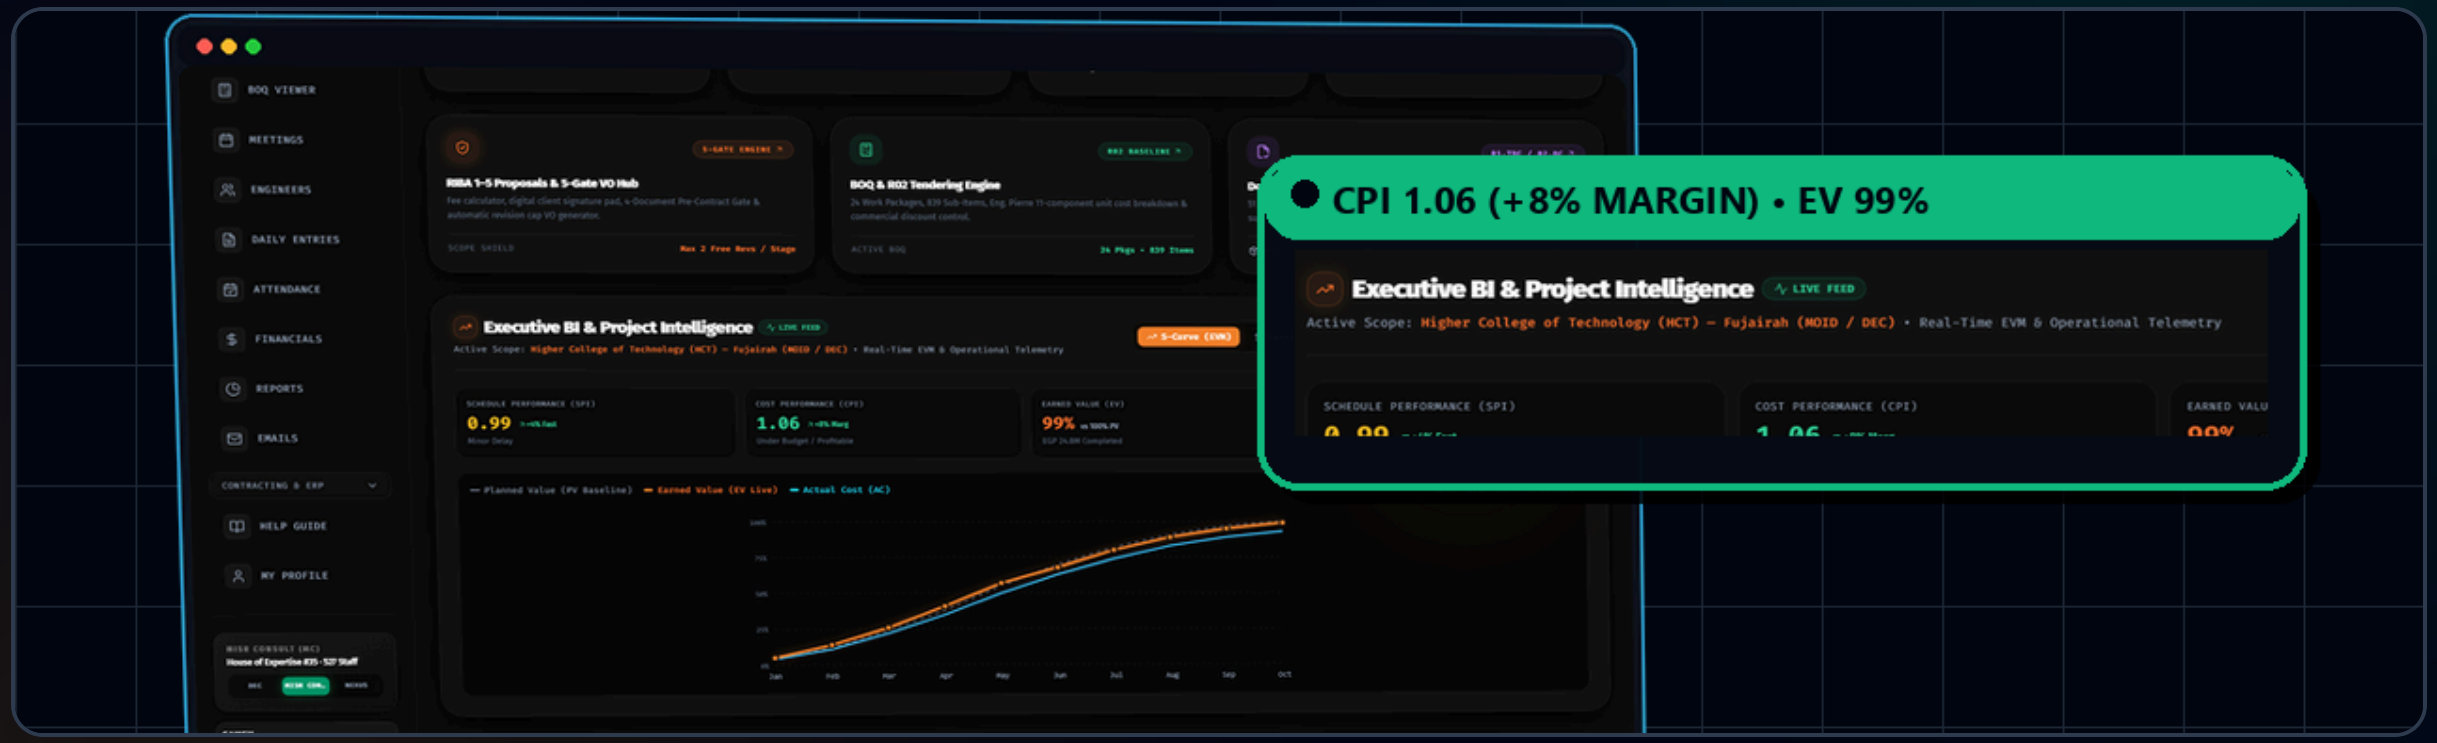

Extruded Feature — Pipeline Matrix:
8,000 KM transmission lines, 750k m³/d SWRO desalination & hydro-test status.

Flagship Corridors Pre-Loaded:
Toshka Reclamation, Waad El Shamal (KSA), New Alamein & New Capital.

1-Click ISO Audit Export:
Export complete ISO 9001 / 14001 / 45001 quality registers in seconds.

Spot Delays & Protect Profit Margins in 5 Seconds

Automatic S-Curve comparing Planned Value (PV), Earned Value (EV), and Actual Cost (AC).

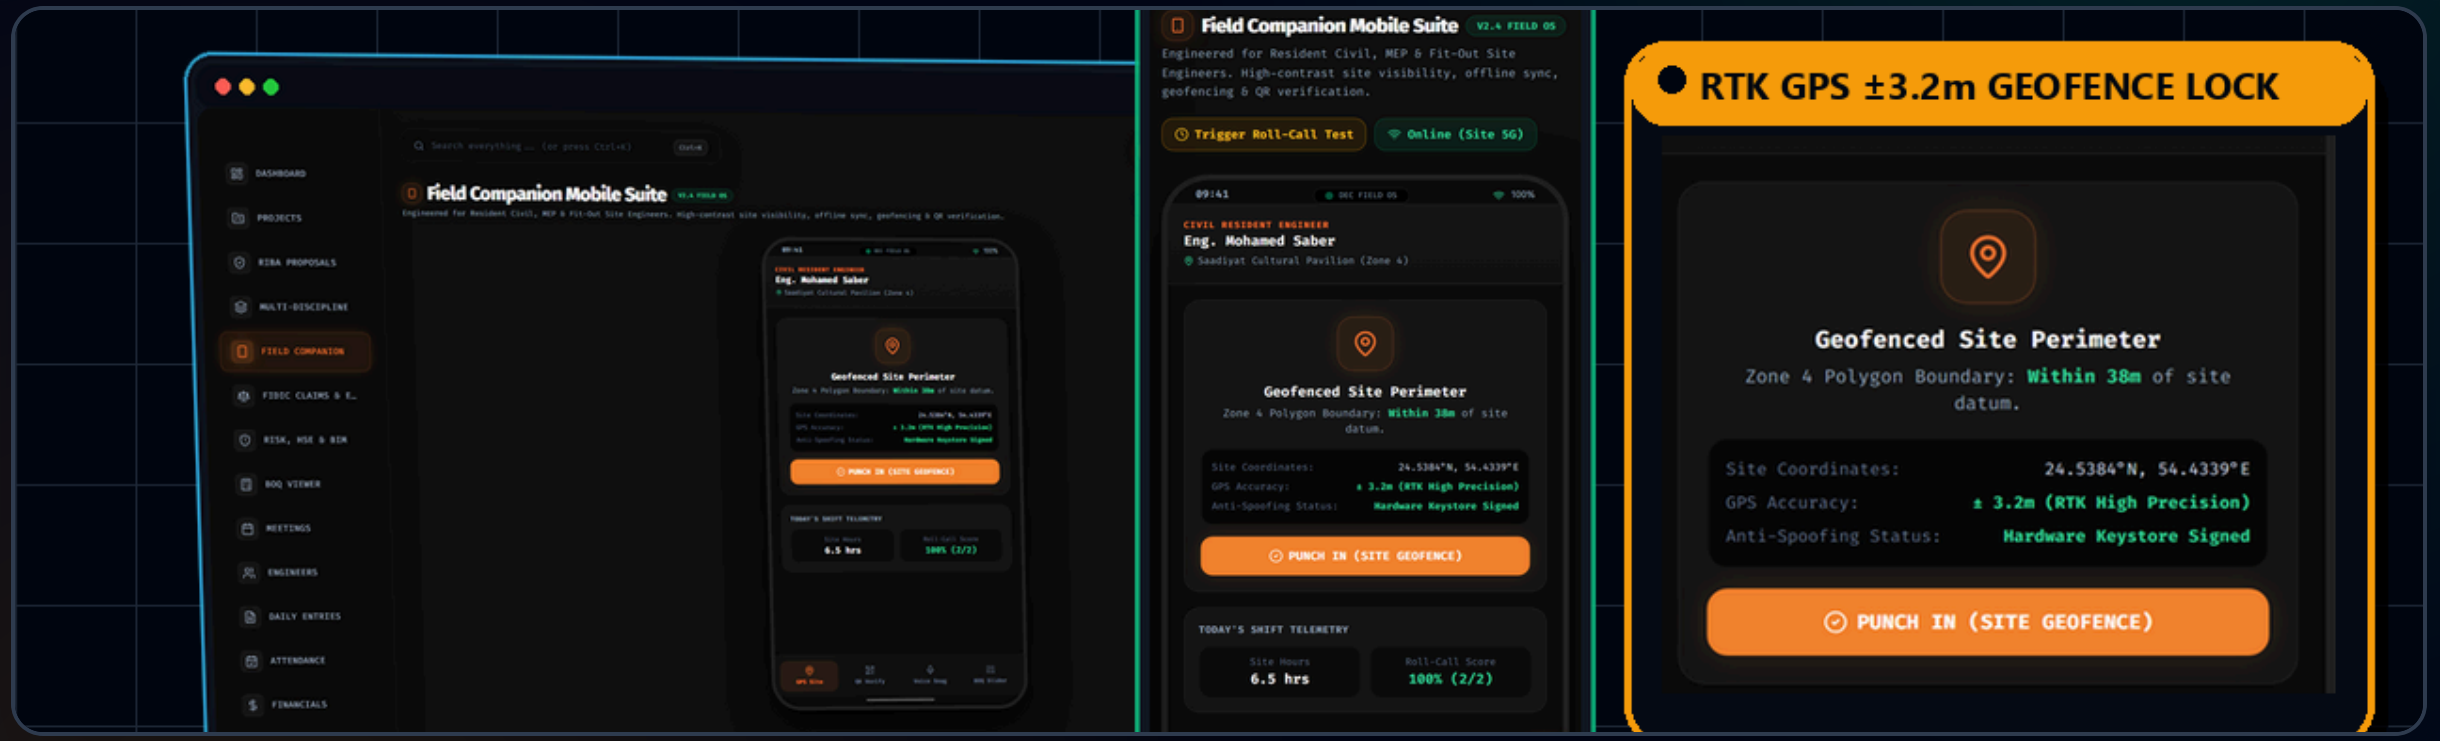

Extruded Feature — Live CPI & SPI:
Instantly see which projects are profitable (CPI 1.06) and on schedule.

Interactive S-Curve:
Compare baseline plan vs. actual physical progress across every month.

Cashflow & Submittal Tabs:
Switch between S-Curve, Cashflow Cone, and Discipline progress in 1 click.

From Toshka & Sinai to Cairo HQ in 30 Seconds

Your site engineers check in with RTK GPS, snap defect photos, and log daily reports from any phone.

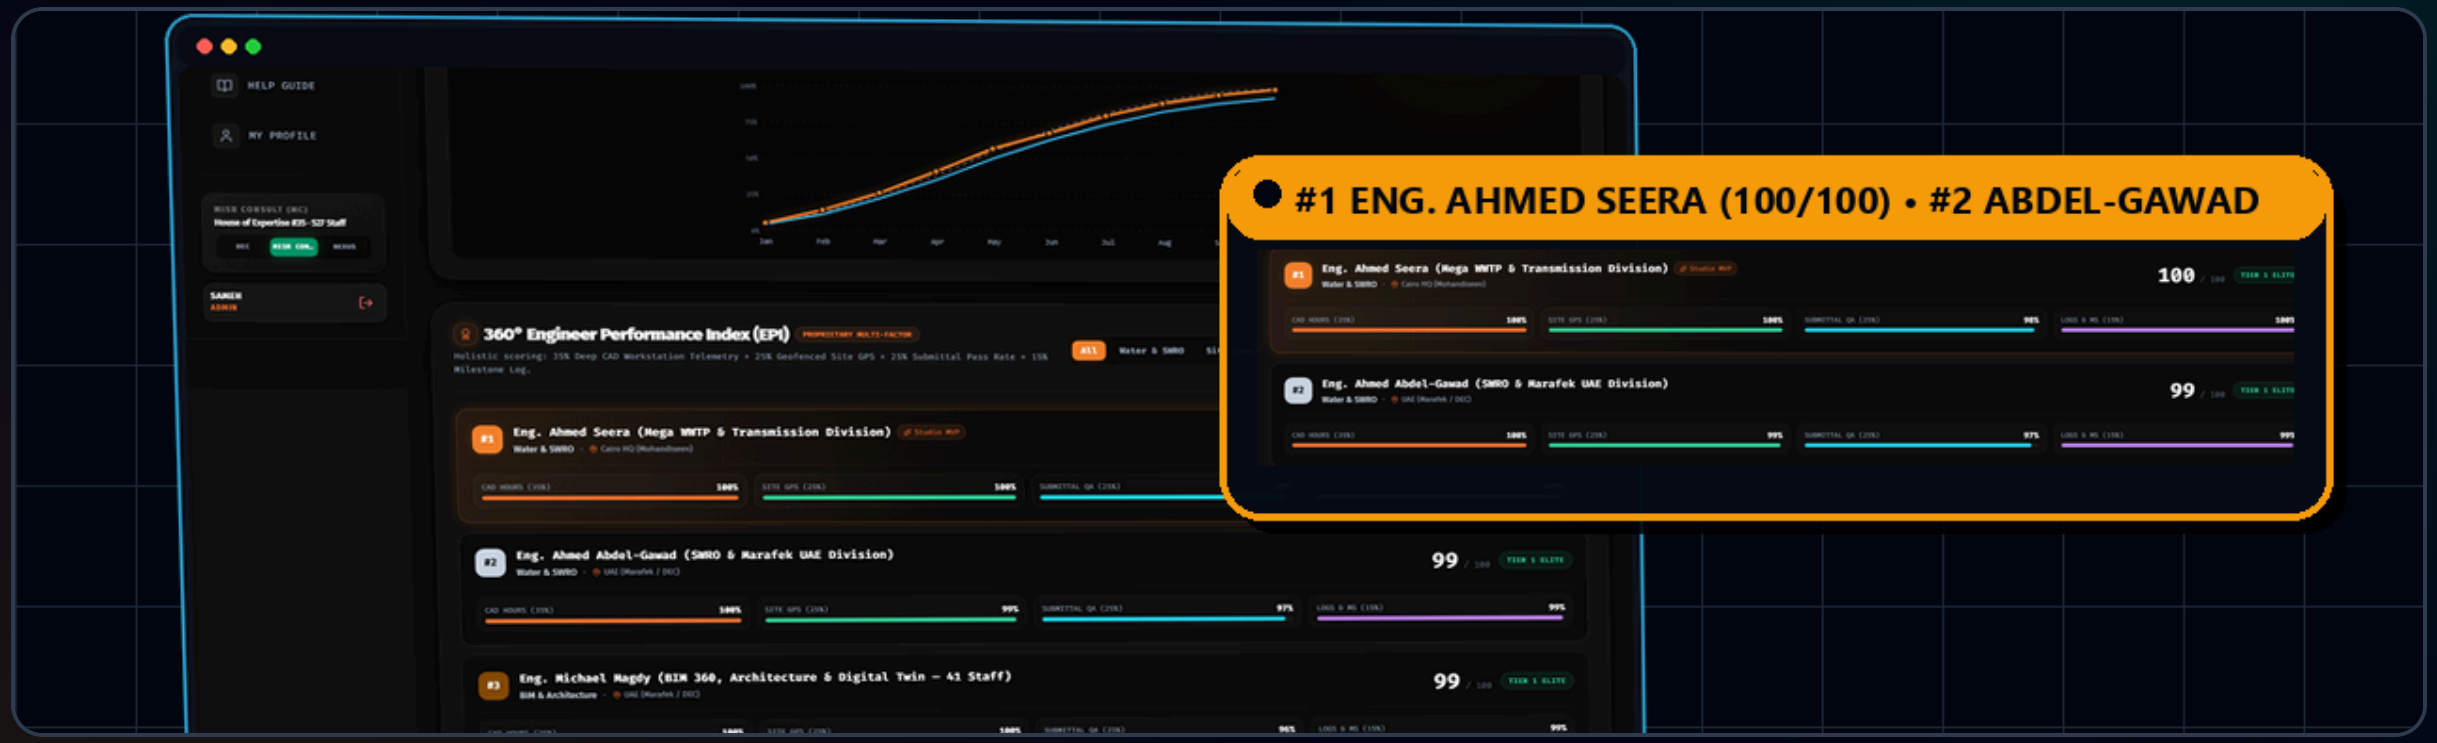

Extruded Feature — RTK GPS Geofence:
Verifies engineer attendance inside the site boundary (±3.2m accuracy).

Instant Defect Photos (NCRs):
Snap a photo on site and pin it directly to the project—no more lost WhatsApps.

Works Offline in Remote Desert Sites:
Saves data on the phone and syncs automatically when signal returns.

Every Engineer Scored Fairly Out of 100

Reward your hardest-working studio and site engineers using objective data—not guesswork.

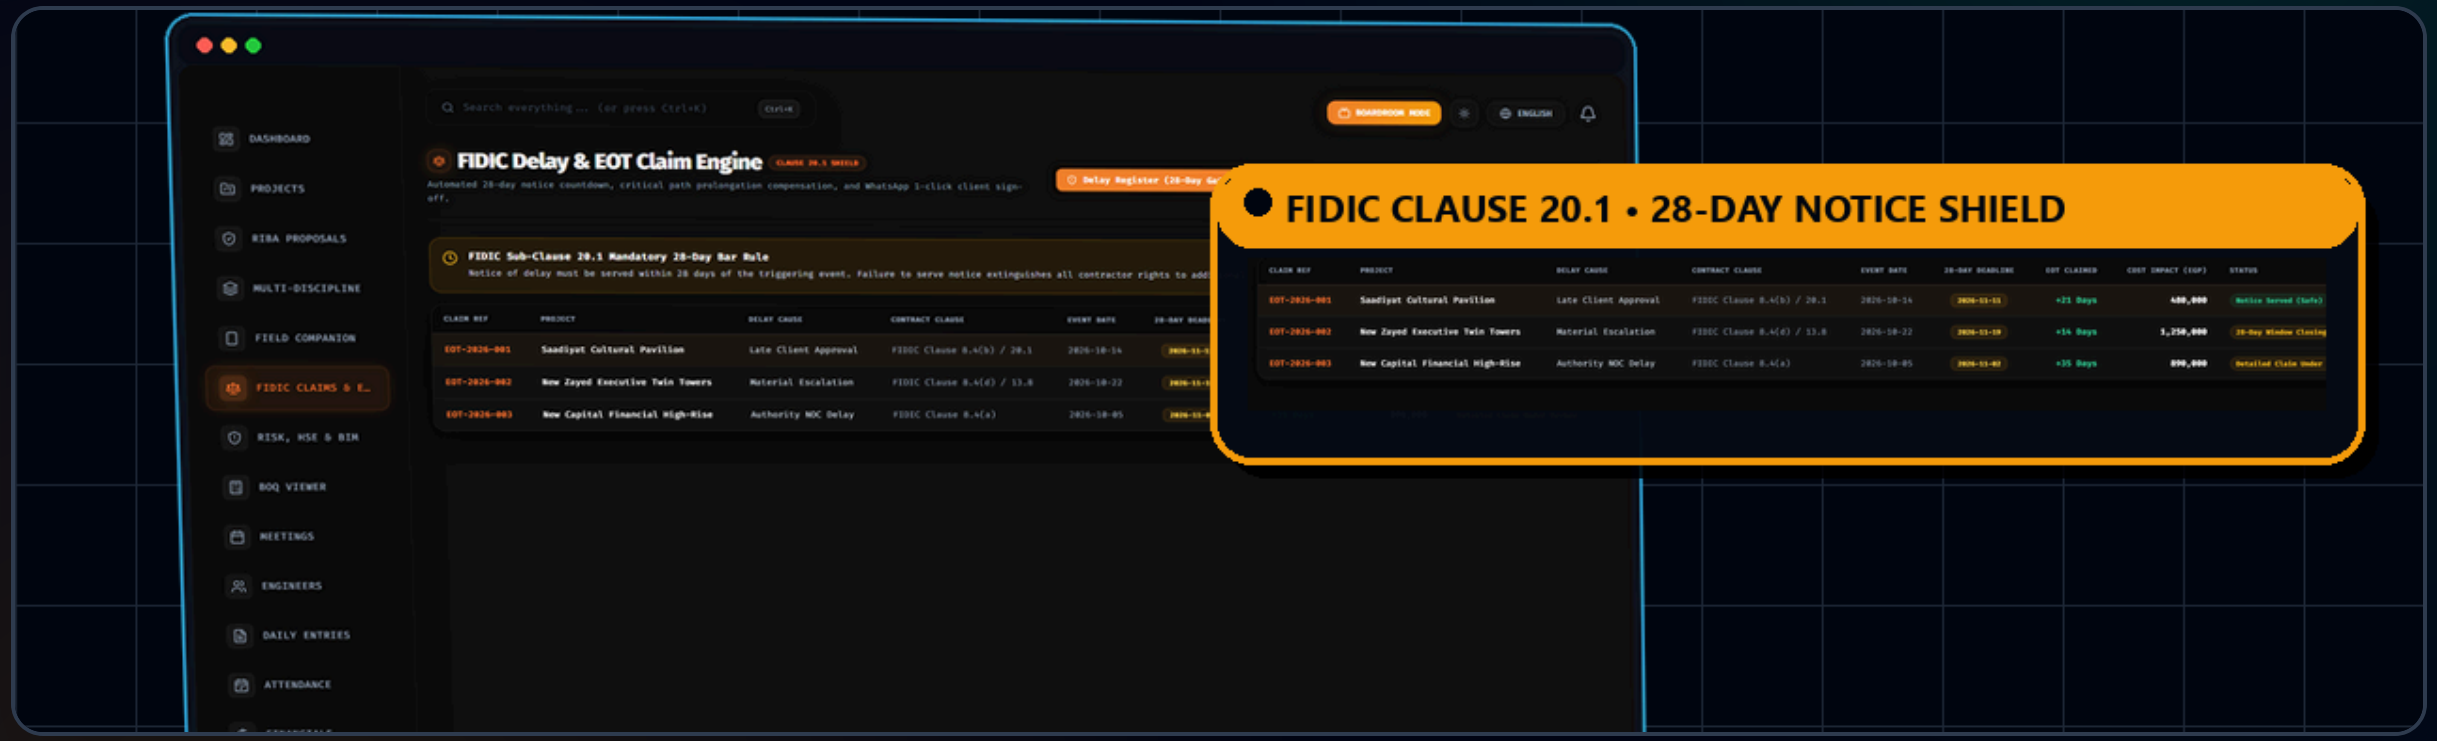

Extruded Feature — Top Talent Ranking:
#1 Eng. Ahmed Seera (100/100), #2 Eng. Ahmed Abdel-Gawad (99/100).

4 Fair Pillars:
35% CAD Telemetry + 25% Site GPS + 25% Submittal Pass Rate + 15% Milestones.

Filter by Division:
Filter rankings by Water & SWRO, Site Supervision, MEP, BIM, or Civil.

Never Lose Money on Project Delays Again

Automatically tracks the 28-day FIDIC notice deadline and writes bilingual claim letters in 1 click.

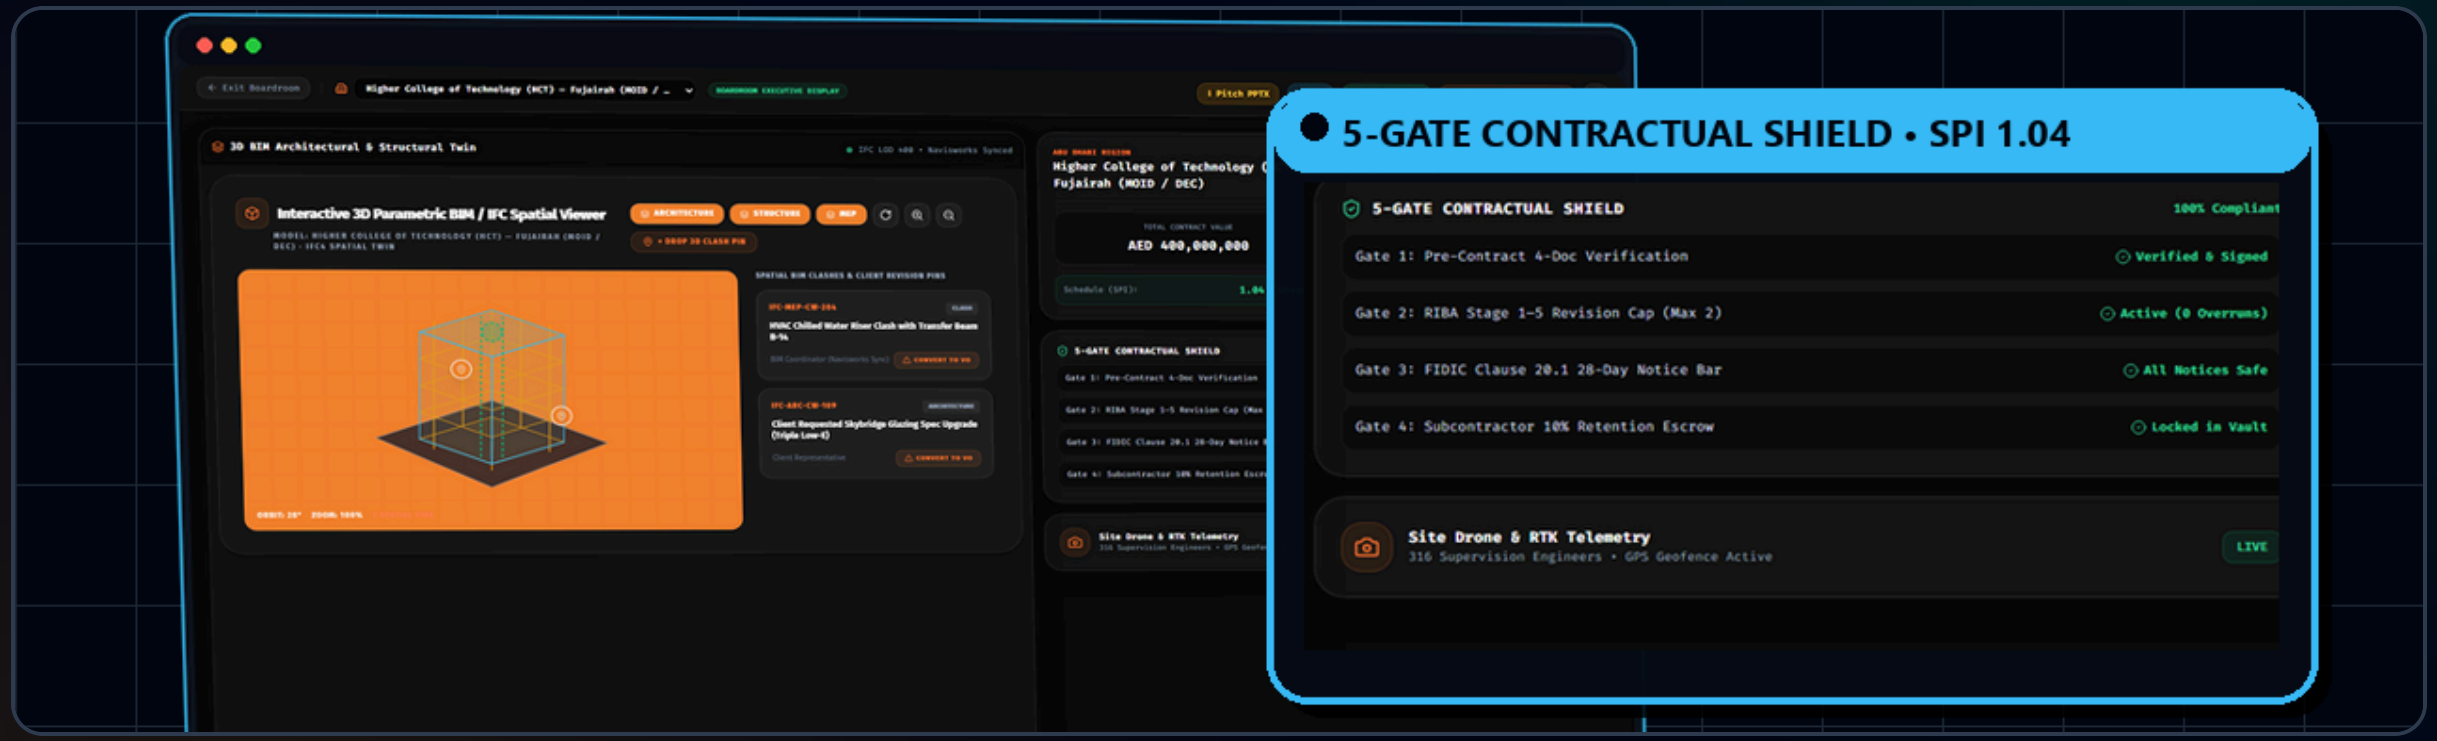

Extruded Feature — 28-Day Time-Bar Shield:
Alerts you before the 28-day FIDIC Sub-Clause 20.1 notice window expires.

Calculates Extra Days & Fees:
Automatically computes EOT days (+21d, +35d) and supervision cost impact.

1-Click Bilingual Legal Notice:
Generates ready-to-sign Arabic/English FIDIC Red/Yellow Book notices.

Built to Wow Ministries & Gulf Clients Visiting Cairo HQ

Put Boardroom Mode on your meeting room TV—complete with 3D BIM models and a 'Client Mode' privacy toggle.

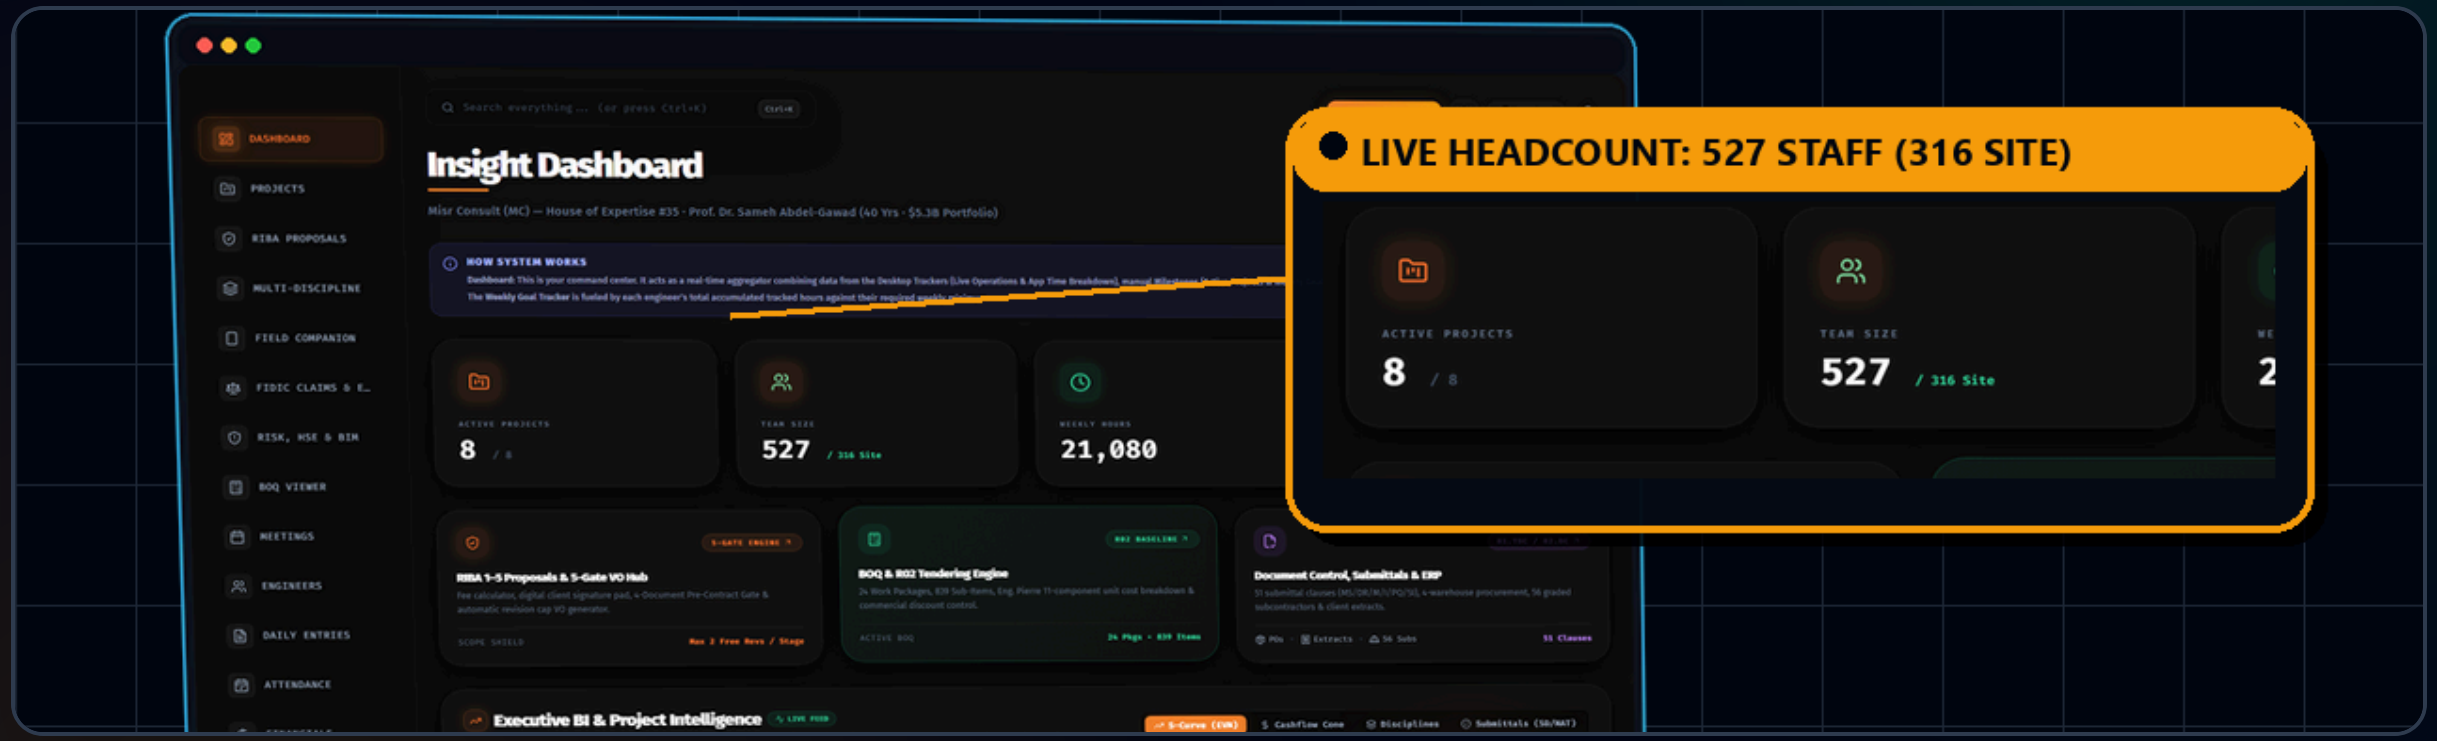

Extruded Feature — 5-Gate Shield:
Proves 100% contract, RIBA revision cap, and retention compliance to VIP clients.

Interactive 3D BIM Viewer:
Rotate Architecture, Structure, and MEP models and drop 3D clash pins live.

1-Click 'Client Mode' Toggle:
Hides confidential internal margins so you can present safely to any client.

Why Partner With Me Instead of Big Software Vendors?

Big ERP vendors charge millions and take 12 months. I already built your system and customize it in 24 hours.

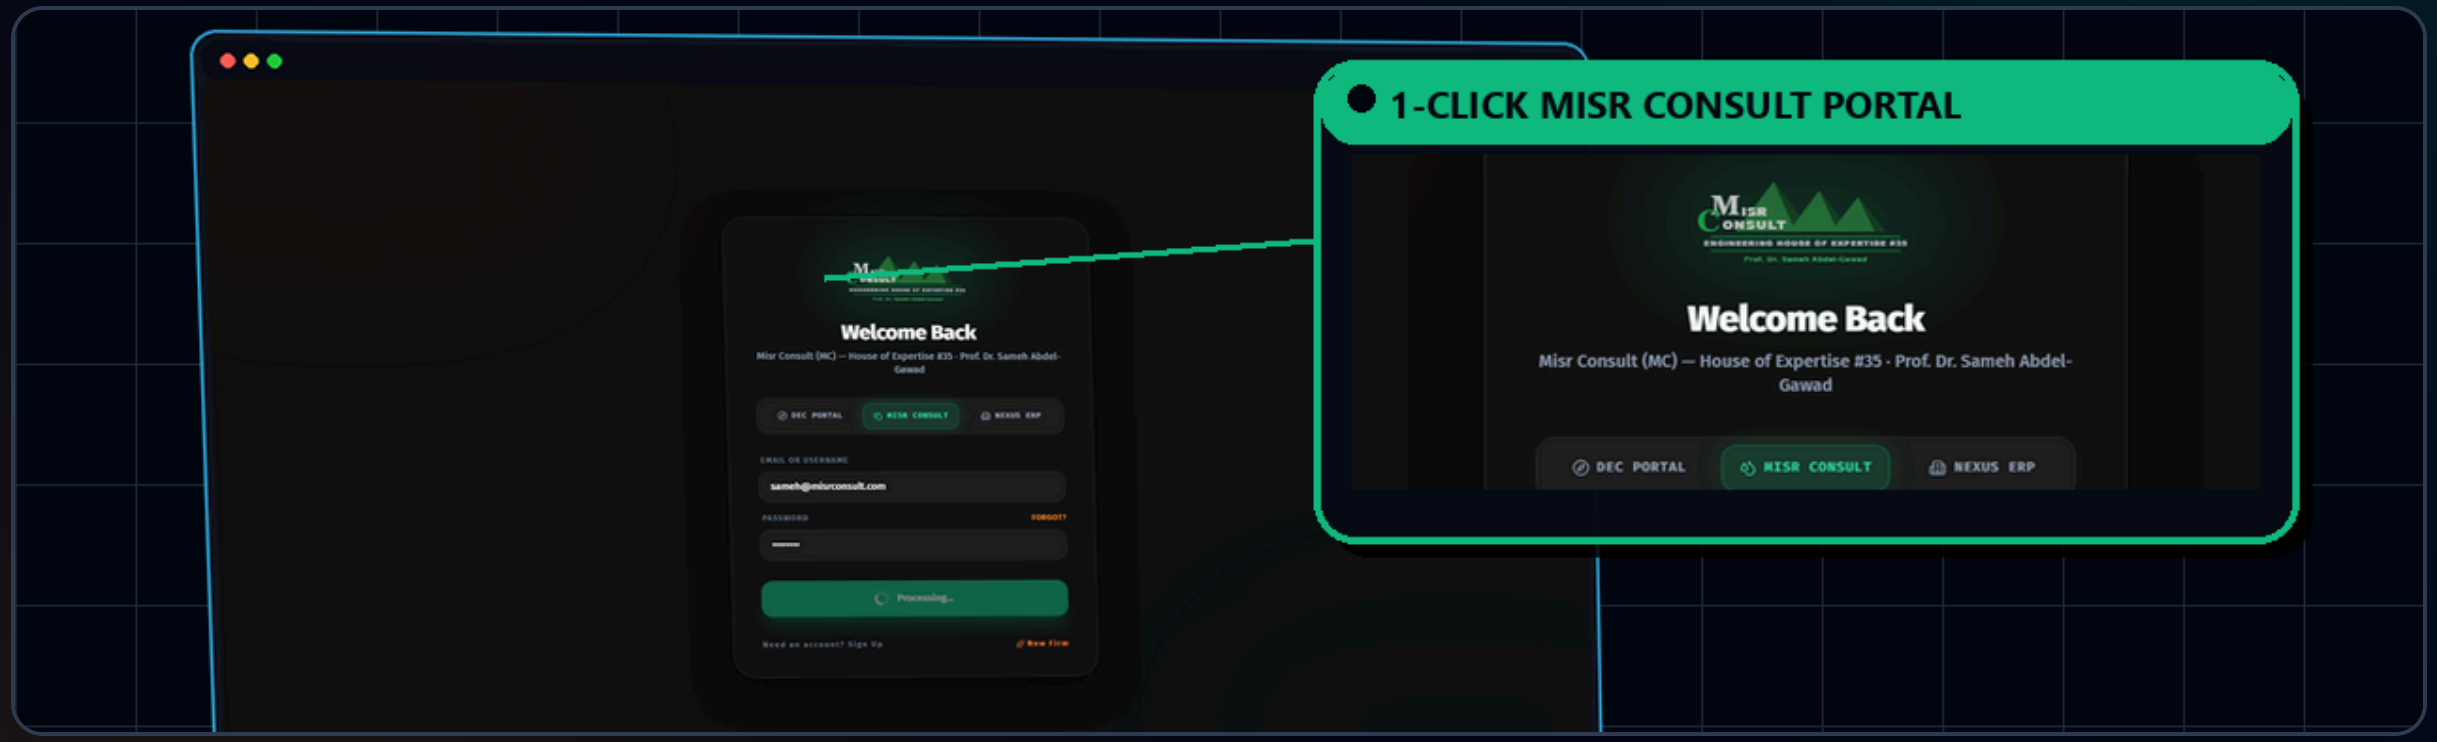

1. Engineered Specifically for Consultancies:
Speaks your exact language—WWTPs, SWRO, 8,000 KM pipelines, FIDIC & RIBA.

2. 24-Hour Custom Feature Speed:
Need a new report or workflow? I build and ship it in 24–48 hours, not 6 months.

3. Direct Engineer-to-Engineer Partnership:
Work directly with Eng. Michael Magdy + 100% Private Local AI on your servers.

Let's Open Your Live Misr Consult Demo Right Now

We start small on 1–2 flagship projects, prove the time saved in 30 days, and expand from there.

Week 1 — Pick 1–2 Pilot Projects:
Load 1–2 active projects from Excel and onboard your division heads in 1 hour.

Week 2 — Field & Office Test Drive:
Site engineers test the mobile GPS app while Cairo HQ tracks live progress.

Live Right Now:
Open https://milestonetracker.web.app/login and click 'Misr Consult'!
