One Simple System to Run All Your Projects & Sites

Built specifically for Misr Consult — ready to use today, not in 6 months.

CUSTOM-BUILT FOR MISR CONSULT

Connect Your Cairo Office & All Construction Sites in Real Time

Manage your **527+ engineers**, water plants, bridges, and site supervision teams from one easy dashboard—on computer or phone.

100%
Live & Working Today

1 Place
Office + Field Combined

Zero
Complicated Setup

WHAT YOU GET TODAY

1. Clear Project Tracking

Know right away which project is on time and which needs help.

2. Easy Phone App for Sites

Site engineers send photos and daily reports in 30 seconds.

3. Fast Reports & Claim Letters

Create delay letters and client reports in 1 click.

Why Managing Big Projects Feels Harder Than It Should

When you have 500+ staff across many sites, information gets lost every day.

1

Lost WhatsApp & Excel Updates

Site photos, daily notes, and drawing updates are scattered across WhatsApp groups, emails, and different Excel files.

Result: Wasted hours searching for updates

2

Hard to Track 300+ Site Staff

With engineers spread across Toshka, Sinai, and the UAE, Cairo HQ cannot easily see who is on site and what got inspected today.

Result: Slow visibility from remote sites

3

Slow Client & Delay Reports

When a contractor or client causes a delay, writing a formal claim letter or preparing a board report takes days of manual work.

Result: Missed time & unpaid extra work

Everything in One Clean, Easy Dashboard

No more chasing updates—open your screen and see the whole company in 5 seconds.

OLD WAY (STRESSFUL & SLOW)

- ❌ Waiting until the end of the week for Excel reports
- ❌ Scrolling through hundreds of WhatsApp site photos
- ❌ Guessing which engineers are overloaded or top performers
- ❌ Writing delay letters and client reports from scratch

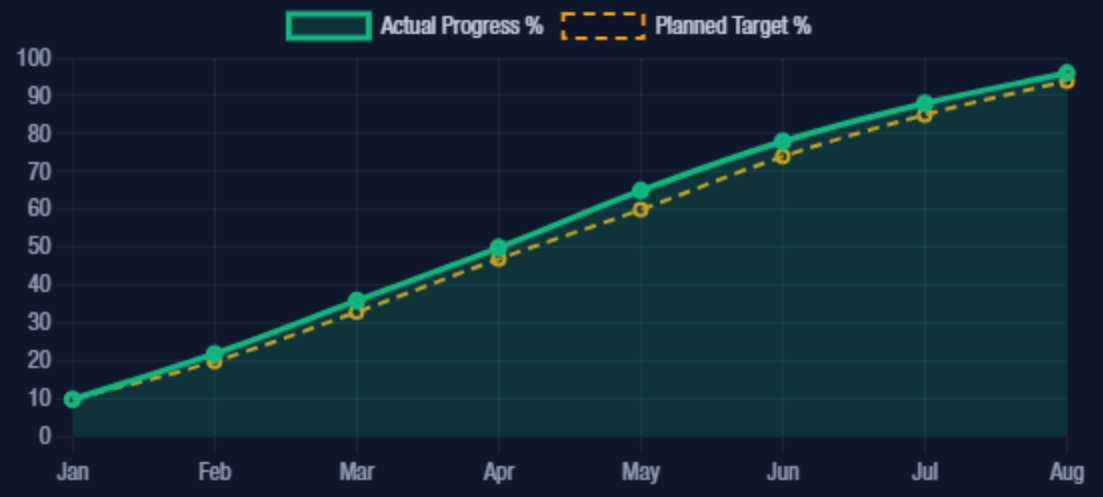

NEW WAY WITH THIS PLATFORM (SIMPLE & FAST)

- ✅ **Live Dashboard:** See all projects, budgets, and progress live
- ✅ **Mobile Site App:** Site photos & notes go straight to the right project
- ✅ **Fair Staff Scoreboard:** Automatically see your top engineers
- ✅ **1-Click Reports:** Instant delay letters & TV mode for VIP clients

See All Your Projects & 6 Departments at a Glance

Already set up with Misr Consult's real departments and flagship projects.

LIVE PROJECT PROGRESS (PLANNED VS. ACTUAL)

YOUR PROJECTS READY IN THE DEMO TODAY

Abu Rawash Mega Wastewater Plant
Water & Civil • Construction Stage
On Track (96%)

Marafek SWRO Desalination (UAE)
Desalination • Technical Design
On Track (98%)

Toshka & Sinai Site Supervision
316 Site Engineers • Field Works
Active (91%)

22 National Grain Silos
Structural & MEP • Handover
Completed (99%)

Site Updates From Any Phone in 30 Seconds

No more messy WhatsApp groups—site engineers log inspections, photos, and attendance from their phone.

MOBILE SITE VIEW

GPS VERIFIED

SITE ISSUE PHOTO LOGGED

Steel rebar spacing issue on Tank #2

Sent with photo & exact GPS location

INSPECTION APPROVED

Pipe Pressure Test — Pump Station 3

Signed off by Resident Engineer

Works on any iPhone or Android — even with weak site internet

Why Your Site Supervision Team Will Love It

1. **GPS Attendance Proof:** Know for sure when engineers arrive on site.
2. **Snap & Pin Site Defects:** Take a photo of any contractor mistake and track it until fixed.
3. **1-Minute Daily Diary:** Log weather, worker count, and equipment in seconds instead of typing long Word files.

Saves 2+ hours every day for your Resident Engineers.

Reward Top Engineers & Protect Your Contract Fees

Objective staff scoring + instant FIDIC delay letters when clients or contractors slow you down.

360° ENGINEER SCOREBOARD

Know Your Best Performers

Automatically scores engineers fairly using 4 simple numbers: CAD work, site GPS check-ins, drawing quality, and on-time tasks.

#1 Eng. Ahmed Seera (WWTP Division)	**100 / 100**
#2 Eng. Ahmed Abdel-Gawad (SWRO UAE)	**99 / 100**
#3 Eng. Mohamed Saber (Site Supervision)	**97 / 100**

1-CLICK DELAY & CLAIM GENERATOR

Never Lose Money on Project Delays

When a site is delayed by utility clashes, customs, or client changes, generate a complete, ready-to-sign FIDIC claim letter in seconds:

- ✅ Pulls real site logs & dates automatically
- ✅ Calculates extra days & supervision cost owed to MC
- ✅ Ready to print or export as PDF for the client

Impress VIP Clients & Ask Your Private AI Anything

100% private AI that keeps Misr Consult's data safe + a full-screen TV mode for your Cairo boardroom.

📺 BOARDROOM TV MODE

Wow Ministries & Gulf Clients

When a Ministry delegation or UAE client visits your Cairo HQ, put **Boardroom Mode** on the big screen:

- Interactive **3D BIM Model Viewer** right in the browser
- **"Client Mode" Toggle** hides confidential internal margins
- Shows live ISO quality, safety, and schedule health

🔒 100% PRIVATE AI ASSISTANT

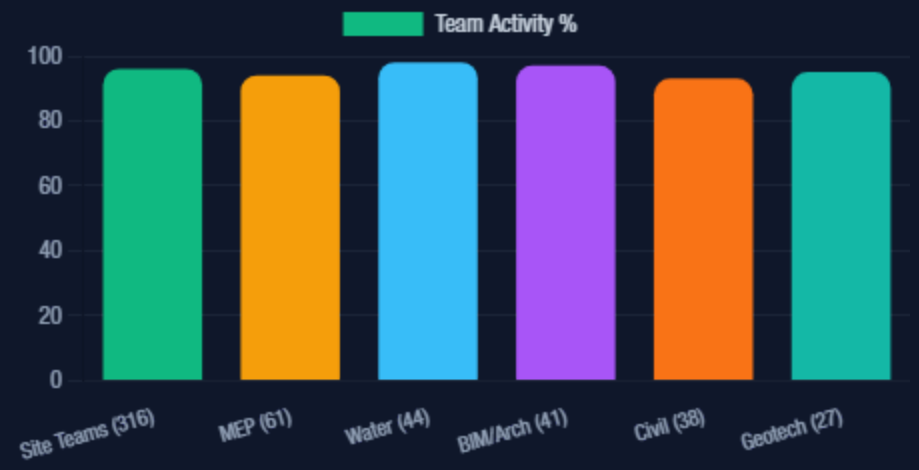

Ask Questions in Plain English

Ask the built-in AI Copilot: *"Which projects are behind schedule?"* or *"Write a progress summary for Abu Rawash."*

- Runs on **your own local server** (zero data leaks)
- Safe for sensitive national water & grain silo projects
- Saves directors hours of reading long reports

Why Misr Consult Should Partner With Me

Big ERP companies charge millions and take 12 months. I already built your system and customize it in hours.

My Unfair Advantage for Misr Consult

1. Built for Engineering Consultants (Not Generic Tasks)

Everything speaks your language: RIBA stages, BOQ, FIDIC claims, BIM, and site supervision.

2. Speed That Big Vendors Cannot Match

Need a custom form for Toshka or a special report for a UAE client? I deliver custom updates in 24–48 hours.

3. Direct Engineer-to-Engineer Partnership

You work directly with me (Eng. Michael Magdy)—no middlemen, no ticket queues, and hands-on training for your team.

Zero Disruption to Your Current Work

We start small on 1 or 2 flagship projects, prove the value in 30 days, and expand from there.

STEP 1 • WEEK 1

Pick 1–2 Pilot Projects

We customize your Misr Consult portal logo, import 1 or 2 active projects from Excel, and give logins to your key directors.

Takes less than 1 hour of your team's time

STEP 2 • WEEK 2

Site & Office Test Drive

Site engineers use the phone app for daily reports and defect photos, while Cairo HQ tracks live progress on the dashboard.

I personally train & support your engineers

STEP 3 • WEEK 4

Review Results & Scale

We review the time saved, test the 1-click FIDIC claim reports and Boardroom TV mode, and roll out across Misr Consult.

100% proven value before full rollout

Your Misr Consult Platform Is Already Live

Let's open the browser right now and click 'Launch Misr Consult Demo' together.

READY ON COMPUTER & MOBILE

Try It Live Right Now in 1 Click

Open **milestonetracker.web.app/login** on any laptop or phone in this room and tap **"Launch Misr Consult (#35) Demo"**.
